#### Quality Infant and Toddler Environments:

Children under 3 learn through continuously exploring and interacting with their environment, which includes the emotional climate of a child care setting as well as the physical space.

Babies and toddlers need safe spaces for quiet and active play (both inside and outdoors), safe spaces for sleeping, and spaces to interact one-on one with individual caregivers.

Within the environment they need toys and activities selected primarily for individual interests and abilities.

The regional Early Childhood Enrichment programs can provide assistance in choosing items that would best enhance your program for the infants and toddlers in your care. Their contact information can be found at: https://dss.sd.gov/childcare/educationalopportunities/sites.aspx

#### Considerations when purchasing items for Infant and Toddler spaces:

#### 1. Safety:

- Age & developmentally appropriate equipment made of non-toxic material
- non-slip floors
- stable shelves, objects, and fixtures with rounded corners

#### 2. Health:

- surfaces are easy to clean
- · item fits the space it will be used in

#### 3. Comfort:

- tiles and rugs
- 4. Convenience:
  - storage units
- 5. Child Size Space:
  - · child size furniture
  - · low to the ground climbing, exploring

#### 6. Flexibility:

tables, storage units that can used for multiple purposes

#### 7. Movement:

• multi-level equipment: slopes, play pits, moveable platforms

#### 8. Choice:

· variety of textures, activities, equipment
