Comments:

Four personnel records were reviewed. Sacred Heart Center utilizes a checklist for use as an orientation plan and to document completion of the agency orientation by new staff.

A document labeled Sacred Heart Child Services 2020-21 Trainings was included in the application materials and can be found in the licensing record. The document labels out In-Service Trainings conducted by month by the facility. The document does not indicate how many hours each training is per month. The trainings by month appear to meet all areas of in-service training required during the first year of employment. Personnel records for staff employed for more than one year contained documentation of at least the minimal amount of training needed to be in compliance with licensing rule.
