

Health Homes Give You More

A Health Home is:

- + Care focused on you as a whole person
- + A connection to other health care and community resources
- + The right care when and where you need it
- + Help to answer your questions about your health
- + Information to help you live a healthy life
- + Help to plan for your health needs

= Better health

A Health Home is not:

- Home Health services provided in the home
- A place to live

Referrals

If you are in a health home and need to see other doctors or specialists, your doctor will give you a referral. If you go to a different doctor without a referral, you will be responsible to pay the bill.
