

Implementation Workgroup Meeting
Meeting Summary
May 5, 2020
Via Conference Call

Introductions were completed and the agenda reviewed.

Kathi Mueller provided a Health Home Update which included reporting that the current number of health homes was 128 serving 132 locations and the average number of individuals in the program was 5,800 recipients per month.

Kathi also reported that she continues to work on building on increasing capacity.

- New Clinics for January 1, 2020, included
 - Monument Health in Belle Fouché
 - Oyate Health Center/ Tribal 638 in RC
 - Access Rural Health in Mitchell
- Expecting applications for the following clinics for July 1, 2020
 - Center for Family Medicine
 - Monument Health in Spearfish
- Other Notables include
 - Yankton Medical Clinic
 - Clinics that are part of Rural Health Inc
 - Avera Clinic in Yankton

Kathi shared two new technology enhancements with the group. These included the following:

1. GIS map to find providers <https://dss.sd.gov/healthhome/providers.aspx>, and
2. Online Provider Selection Tool. <https://dss.sd.gov/pcphhselection>

Kathi also mentioned that they were looking to find a way to automate the re-tier process.

Kathi introduced that CY 2018 Data Dashboard. Kathi noted that the Health Home Program yielded \$7.3 million in cost avoidance. Additional information in the Dashboard can be found on slides 8-14 of the presentation under the meeting materials.

Kathi summarized the payments made for the CY 2017 Quality Incentive Payment. This was the first Quality Incentive Payment made. The summary is as follows

- \$503,263.75 in payments were made to 68 clinics based on outcomes from CY 2017
 - 48 clinics received a Small Clinic Payment
 - 33 received Small Clinic Payment only

□ 15 received both a Small Clinic Payment and Clinic Outcome Measure Payment (COMP)

- 35 clinics received a Clinic Outcome Measure Payment

Kathi also shared that she had received feedback from clinics about using the 1 standard deviation above or below the mean to make the payment. She recommended pulling the Subgroup back together to revise the methodology.

Kathi reported that the same methodology would be used to make the CY 2018 payment. A revision should be ready for the payment using CY 2019 outcomes data.

Time was allotted for questions and concerns.
