## RE: 90-day prescription fills

South Dakota Medicaid now allows prescriptions for certain generic maintenance medications to be filled as a 90-day supply. The list of <u>eligible medications</u> is subject to change so please review the list on a regular basis.

Recipients must first establish compliance and tolerability of the medication before it can be filled as a 90-day supply. In order to qualify, a recipient must have filled the prescription for the same drug and strength for three 30-day supplies within the previous 100 days.

South Dakota Medicaid encourages providers to utilize this new benefit feature to improve patient compliance and overall health.

Sincerely,

South Dakota Medicaid
