

Response to Offeror Questions

Division of Behavioral Health Responses

RFP# 1056

Question One:

Are only cities and counties eligible to apply, or is it for non-profits to provide this service to cities and counties?

Response:

The intent is that communities are coming together to develop crisis services based on the needs of the individuals with mental illness in their communities to divert justice system involvement. This could be a collaborative effort between a service provider and a municipality, county, or groups of counties but there would need to be support from the municipality, county or groups for counties for a non-profit to provide the services.
