Stakeholder Survey Summary
South Dakota Urban Indian Health
 Printed September 2020

Survey Respondents

The Division of Behavioral Health (DBH) recognizes the need for strong community collaboration at the local level between agencies accredited with the DBH and their local referral sources seeking services for clients. Accredited agencies are asked to share a stakeholder survey with local referral sources such as schools, healthcare providers, and other entities of their choosing. The Stakeholder Survey is intended to create a dialogue between referral sources and accredited agencies to encourage collaboration to best meet the needs of clients.

Impact of Outpatient Treatment Services

Impact of treatment services is measured by surveying client perception of the quality of services received including the following: general satisfaction with services, access to services, quality and appropriateness of services, outcome of services, and participation in treatment planning. Additionally, impacts are measured by improvements in social connectedness and overall functioning. Impact of treatment services is relevant because clients who feel empowered, motivated, have positive family relationships, and feel they have the ability to change may be more likely to have positive treatment outcomes.

The following information represents data from those clients who agreed or strongly agreed at the time of successful discharge.

Impact of Outpatient Treatment Services

Impact of treatment services is measured by surveying parent/guardian perception of the quality of services received including the following: general satisfaction with services, access to services, cultural sensitivity, outcome of services, and participation in treatment planning. Additionally, impacts are measured by improvements in social connectedness and overall functioning.

The following information represents data from those parents/guardians who agreed or strongly agreed at the time of successful discharge.

Program Outcomes for MRT

MRT combines education, group and individual activities, and structured exercises to assist participants in addressing negative thought and behavior patterns. The program promotes higher moral reasoning by increasing self-image and promoting a productive identity. MRT includes 12 steps focusing on issues such as honesty, trust, acceptance, healing, relationships, and setting goals.

Impact of MRT

Impact of treatment services is measured by surveying client perception of the quality of services received including the following: general satisfaction with services, access to services, quality and appropriateness of services, outcome of services, and participation in treatment planning. Additionally, impacts are measured by improvements in social connectedness and overall functioning. Impact of treatment services is relevant because clients who feel empowered, motivated, have positive family relationships, and feel they have the ability to change may be more likely to have positive treatment outcomes.

The following information represents data from those clients who agreed or strongly agreed at the time of successful discharge.

TCU Criminal Thinking Sub-Scales from Pre-Test to Post-Test

The TCU Criminal Thinking Sub-Scales is the tool used at admission into and at discharge from MRT treatment services. The sub-scales were developed to assess cognitive functioning expected to be related to criminal conduct. A reduction in any of the six sub-scales from pre-test to post-test may indicate a reduction in criminal thinking.

Targeted Services for Justice-Involved Adults

Utilization of High Cost Services for MRT

High cost services include the following: treatment for illness, injury, or surgery, emergency department visits, hospital admissions for mental health care, detoxification services, inpatient substance use disorder treatment services, or detention in a correctional facility. Participation in treatment services may help reduce the frequency of client utilization of high cost services. Data from FY17 and June through December FY18 are not reported due to a change in the reporting process. The following section includes data at admission into services and at successful discharge from services.
