Treatment  
Services**

# FY24 Foreword by Data and Outcomes

The Division of Behavioral Health is dedicated to maintaining data quality and implementing best practices data collection and monitoring to provide the public and stakeholders with meaningful information on publicly funded behavioral health treatment services in the state of South Dakota. We do this to be transparent with the public and stakeholders regarding areas of accomplishment as well as areas that may require further improvement. To this end, the profiles the Division of Behavioral Health publishes every year highlighting annual outcomes and treatment data have undergone significant updates. These updates reflect advances made in technology and data science to produce more meaningful comparisons on how behavioral health treatment services impact the client. Given these changes, we address what we anticipate will be some frequently asked questions below.

## **Can I compare this data to previous years?**

The Division of Behavioral Health's Data and Outcomes teams are currently refining the data extraction process to ensure its accuracy. In previous years, our data included clients who had assessments entered into STARS without formally being admitted into an SUD service. Many of these clients were categorized under outpatient services for reporting purposes. This year, however, we have adjusted our methodology to exclude clients who only received assessments and did not proceed to actual services.

Because of the changes and advancements in data processing, we do not recommend comparing data in this document to previous years' profiles. This recommendation is provided for many reasons; the chief among them is that data in this document are paired on a client basis, meaning that a client's admission data are paired up with their update and discharge data to create what is known as matched or paired datasets. Data were not matched previously, which means a direct comparison would produce inaccurate conclusions.

## **Does this mean that previous data are inaccurate?**

Previous years' data are not inaccurate. Data analysis is a field that, like many areas, advances over time, especially as technology advances. Data presented in previous versions of the profiles were compiled and presented using valid and accurate data analysis techniques, and this new document also uses valid and accurate data analysis techniques. However, this document takes a step forward in using different data analysis techniques to align with best practices, and emerging and validated theories on data analysis and to utilize the leaps in technological advancements that have occurred within recent years.

## **What do these changes accomplish?**

These changes allow us to make more definitive conclusions on the effects that behavioral health treatment services have on the clients receiving services. With paired data, we can directly analyze the changes in client responses from treatment admission to update to discharge.

Previously, such conclusions could not be definitively drawn, as the clients who were counted at admission, update, and discharge were not matched and therefore potentially different. Previous editions of profiles compared those that were admitted in a given contract year to those that provided updates in the same given year, to those that were successfully discharged from services in that same year. Each of those groups may have included some of the same clients,

but someone may admit in one fiscal year and discharge in another. With the new method, we look at those that received services in a given fiscal year regardless of when they admitted or discharged.

### **Does a client who receives services only receive one type of treatment service?**

A client receives services as the trained professionals determine appropriate recommendations based on initial and ongoing assessment. A treatment episode (admission to services through discharge from services) for a client is as varied and unique to the client themselves. As an example, a client may initially be admitted to inpatient residential services, but as they progress in treatment, they may transition to outpatient services in their community. In such a case, a client's outcomes and data are counted once in both inpatient and outpatient services each, and once in the total services. This means that the data are unduplicated within service types as well as the overall data. If a client starts in outpatient, transitions to inpatient, and then transitions back into outpatient, that client is still only counted once in each service type. This is also why adult and youth services cannot be added to get the overall number of clients served. A client may turn 18 during their treatment episode and therefore, may be counted once in each adult and youth sections while being counted once in the overall number of clients served as well.

### **Why do I see “NaN” and “Infinity” in the percent change column?**

“NaN” stands for “Not a Number.” NaN and Infinity both occur when the initial score or value at time of admission is 0. Because percent change is calculated by taking the difference divided by admission (multiplied by 100), if the initial score is 0, then this formula attempts to divide by 0, which results in either an error, NaN, when the difference is 0 also (0/0) or an infinite increase if the difference is anything but 0 (such as 1/0).

### **Why does the table show an increase in percent change, but the graph shows a decrease, or vice versa?**

Generally, the tables show data pertaining to the average change on an individual basis. The graphs tend to show changes as percentages of the population of clients. This can sometimes result in what appears to be inconsistent data. It is possible for the average individual to experience an increase in symptoms while the majority of the client population had fewer symptoms. For example, if 3 clients reported their symptoms as a 2 at admission but a 0 at discharge and 1 client reported their symptoms as a 2 at admission but a 10 at discharge, 75% of clients (3/4) reported a decrease in symptoms but the average change for the average individual is an increase from 2 (8/4) at admission to 2.5 (10/4) at discharge, a 25%  $((2.5-2)/2)$  increase in symptoms. Both ways of looking at the data are valid and convey different aspects of the clients served through public funding.

### **How do I find the state profile or an individual agency profile?**

The Executive Summary, State Profile, and Agency Profiles can be found at:  
<https://dss.sd.gov/behavioralhealth/reportsanddata.aspx>.

**I am interested in similar data for other states or for the United States of America overall, where should I look?**

The Division of Behavioral Health reports data in this document per the guidelines and categories as required by the U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration (SAMHSA). We report data in this document per the guidelines and categories SAMHSA identifies in various treatment databases, including the Treatment Episode Database Set (TEDS) and the Uniform Reporting System (URS). Because of this close working relationship, we recommend visiting SAMHSA's website if you are looking for national behavioral health treatment information, data, and initiatives (<https://www.samhsa.gov/>).

**Where can I find more information on state and national data related to behavioral health and substance use/misuse?**

The Division of Behavioral Health encourages those that want to learn more to visit our epidemiology website located at <https://www.sdseow.org/>. The reports available from this website provide insight into how South Dakota trends historically against substance use and mental health as compared to our nation for both youth and adult.

**Where can I find more information on DBH and publicly funded treatment services?**

Information about the Division of Behavioral Health and publicly funded behavioral health services can be found on our newest website, <https://sdbehavioralhealth.gov/> or the state of South Dakota's Department of Social Services website <https://dss.sd.gov/behavioralhealth/>, the Division of Behavioral Health can be contacted at 605.367.5236, or via email at [DSSBH@state.sd.us](mailto:DSSBH@state.sd.us).

Thank you for your interest in the data and outcomes of clients who receive publicly funded behavioral health treatment services in the state of South Dakota.

[Page intentionally left blank]

# Data Collection Methodology

Since 2015, the Division of Behavioral Health has collaborated closely with members of the Data and Outcomes Work Group (DOWG) to identify the information found in the state profile and agency profiles. This work group, comprised of representatives from Community Mental Health Centers and substance use disorder agencies as well as the Division of Behavioral Health, meets on a regular basis to review and revise data and data collection methods for publicly funded behavioral health services in South Dakota.

Contracted providers collect data from client questionnaires. The surveyed population includes adults and youth receiving publicly funded behavioral health services as well as parents and guardians of youth receiving services. Publicly funded behavioral health services are funded through state general funds, block grant funding, and Medicaid funding.

Data in this Contract Year 2024 state profile as well as the executive summary and agency profiles were collected between June 1st, 2023, and May 31st, 2024.

## Data Collection Process

### Stakeholder Survey

The Division of Behavioral Health (DBH) collects Stakeholder Survey data once a year for all accredited mental health and substance use disorder agencies. As part of the survey process, accredited agencies are asked to share the survey with stakeholders in their community. In addition, the DBH surveys the Department of Corrections (DOC), Unified Judicial System (UJS), and Child Protection Services (CPS).

### Substance Use Disorder Services

Contracted agencies collect substance use disorder outcome data at admission and at successful discharge from services. Clients completing the surveys do have the option to skip or refuse to answer questions. As a result, total data points collected may change between questions. The Division of Behavioral Health's Data and Outcomes teams are currently refining the data extraction process to ensure its accuracy. In previous years, our data included clients who had assessments entered in the system without formally being admitted into a SUD service. Many of these clients were categorized under outpatient services for reporting purposes. This year, however, we have adjusted our methodology to exclude clients who only received assessments and did not proceed to actual services.

### Mental Health Services

Contracted agencies collect mental health outcome data at admission, every six months, and at successful discharge from services. Outcomes for mental health clients are reported as per their most recent update, as it is common for those receiving mental health services to remain in services for an extended period. Clients completing the surveys do have the option to skip or refuse to answer questions. As a result, total data points collected may change between questions.

### Additional Data Collection Tools

The Texas Christian University Criminal Thinking Scales (TCU) and Global Appraisal of Individual Needs-Short Screener (GAIN-SS) are secondary tools utilized to measure the impact of applicable treatment services.

[Page intentionally left blank]

# Publicly Funded Substance Use Disorder (SUD) Treatment Services

## **Publicly Funded Substance Use Disorder (SUD) Treatment Services**

The Division of Behavioral Health contracts with substance use disorder agencies across the state to provide quality services to both adults and youth. Services include screenings and assessments, early intervention, detoxification, outpatient, residential, inpatient, and other specialized services. Services for justice-involved and at-risk clients who live with substance use disorders are also available. Financial assistance for services is available.

### **Outpatient Treatment Services (0.5, 1.0, 2.1, and 2.5 Services)**

Outpatient treatment services provide counseling services to clients residing in their community who are diagnosed with a substance use disorder. Also available on an outpatient basis are early intervention services for clients who may have substance use related problems but are not diagnosed with a substance use disorder. Outpatient services can be delivered via telehealth.

### **Low Intensity Residential Treatment Services (3.1 Services)**

Low intensity residential treatment services include residential, peer-oriented treatment programs for clients with substance use disorders whose living situation or recovery environment is incompatible with recovery goals. To prepare the client to live successfully in the community, the program provides substance use disorder counseling along with case management services.

### **Inpatient Treatment Services (3.7 Services)**

Inpatient treatment services provide residential services with medically monitored intensive treatment for clients with severe substance use disorders. Thirty or more hours of treatment services are provided each week.

### **Detoxification Treatment Services (Clinically Managed and Medically Monitored)**

Detoxification treatment services are residential services delivered by trained staff who provide 24-hour supervision, observation and support for clients who are intoxicated or experiencing withdrawal symptoms. Staff work to engage the client in further treatment services following stabilization of withdrawal symptoms.

### **Intensive Methamphetamine Treatment (IMT) Services**

IMT services offer long-term, evidence-based programming to clients with moderate to severe methamphetamine use disorders. Clients receiving IMT services require extended treatment to allow for recovery of cognitive capacity as well as on-going case management. Treatment may include residential services, outpatient treatment and case management to support long-term recovery.

### **Pregnant Women and Women with Dependent Children Treatment Services (3.1 & 3.7 Services)**

Pregnant women and women with dependent children can receive specialized treatment services that offer evidence-based programming to this unique population with a substance use disorder. This program allows for long-term support, which includes a stable living environment through the duration of treatment. This program can assist in supporting the client's participation

in psychiatric and medical care, childcare needs, parent education and child development, employment services and job training while providing treatment interventions.

### **Evidence-Based SUD Treatment for Justice-Involved and At-Risk Youth**

Evidence-Based Practices (EBPs) for substance use disorder services, including, but not limited to, Integrated Cognitive Behavioral Treatment (ICBT) or Cognitive Behavioral Interventions- Substance Use Youth (CBI-SUY) are available for justice-involved or at-risk youth. Based on the youth's assessment, the community provider can make referrals to these services or residential treatment programs, as appropriate.

### **Evidence-Based SUD Treatment for Justice-Involved Adults**

Evidence-Based Practice (EBPs) refers to programs, practices, and policies that have been rigorously evaluated and shown to be effective at preventing or reducing problem behaviors associated with substance use disorders. Services for justice-involved adults include the core EBPs of Cognitive Behavioral Interventions- Substance Use Adults (CBI-SUA), as well as any alternate EBPs the provider may deem clinically appropriate based on completion of the assessment. Services are available in person and statewide via telehealth.

### **Moral Reconciliation Therapy for Justice-Involved Adults (MRT)**

MRT is an evidence-based program that combines education and structured exercises to assist participants in addressing negative thought and behavior patterns. The program promotes higher moral reasoning by increasing self-awareness and promoting pro-social attitudes and behaviors. MRT includes 12 steps, focusing on issues such as honesty, trust, acceptance, healing relationships and setting goals. MRT services are available in person and statewide via telehealth.

# Publicly Funded Mental Health (MH) Treatment Services

## **Publicly Funded Mental Health (MH) Treatment Services**

The Division of Behavioral Health contracts with community mental health centers throughout the state of South Dakota. Community mental health centers provide quality services to both adults and youth. Services provided may include screenings and assessments, case management, individual therapy, group therapy, crisis intervention, psychiatric evaluation, and medication management. Specialized services for justice-involved and at-risk youth are also available. Financial assistance for services is available.

## **Outpatient Treatment Services**

Outpatient mental health counseling services are provided to clients of all ages in their community. Group or family therapy and psychiatric services may also be offered.

## **Comprehensive Assistance with Recovery and Empowerment Services (CARE)**

The CARE program provides comprehensive outpatient services to adults with serious mental illness (SMI) within an integrated system, helping clients to live successfully in the community and experience the hope of recovery.

## **Individualized and Mobile Program of Assertive Community Treatment (IMPACT)**

IMPACT provides evidence based intensive services utilizing the Assertive Community Treatment model to adults whose serious mental illness (SMI) significantly impacts their lives.

## **Forensic Assertive Community Treatment for Mental Health Court (FACT)**

FACT is intended for clients with serious mental illness (SMI) who are involved with the criminal justice system. These clients may have co-occurring substance use disorders. FACT builds on the evidence based Assertive Community Treatment (ACT) model by making adaptations for criminal justice issues—in particular, addressing criminogenic risks and needs. FACT is an intervention that bridges the behavioral health and criminal justice systems.

## **Children or Youth and Family Services (CYF)**

CYF services are specialized outpatient services provided to youth with serious emotional disturbance (SED). Family counseling may include a strength-based model for building skills to help improve family relationships, reduce behavioral issues, and improve school performance.

## **Functional Family Therapy for Justice-Involved and At-Risk Youth (FFT)**

FFT is a family-based therapy that focuses on building skills to improve family relationships, reduce behavioral issues, and improve school performance. FFT is a clinical model that increases a family's motivation to change and tailor's interventions to each family's unique risk and protective factors.

## **Evidence-Based MH Treatment for Justice-Involved and At-Risk Youth**

Evidenced-based programming is available for justice-involved and at-risk youth at Community Mental Health Centers and Lutheran Social Services. Those services may include but are not limited to: Functional Family Therapy, Aggression Replacement Training, and Moral Reconation Therapy.

### **Systems of Care Program (SOC)\*\***

SOC includes a wraparound approach to care coordination and service delivery for youth and families with complex needs. This approach is built on the values of being family driven, team-based, collaborative, individualized and outcomes-based. SOC helps families to navigate and access services, while also giving them the skills they need to become self-reliant.

\*\* Data for this program are not presented in the State Profile. However, select data and outcomes can be found in the Executive Summary.

# Stakeholder Survey Summary

[Page intentionally left blank]

## Stakeholder Survey

The Division of Behavioral Health (DBH) recognizes the need for strong community collaboration at the local level between accredited behavioral health treatment providers and their local referral sources. Accredited agencies are asked to share a stakeholder survey with local referral sources such as schools, healthcare providers, and other entities of their choosing.

Additionally, the Division of Behavioral Health shares these stakeholder surveys with state partners such as the Unified Judicial System, Department of Corrections, and Child Protection Services.

The stakeholder survey is intended to create a dialogue between referral sources and accredited agencies to encourage collaboration to best meet the needs of clients.

The majority of stakeholders who completed the survey were court staff, followed by law enforcement.

### Types of Stakeholders Who Responded

Stakeholder Type	N	%
Court Staff-State and Federal (Judge/Attorney/Probation/Parole/JCA/Drug Court/Teen Court)	5	45.5%
Law Enforcement (Sheriff/Police Department/Federal Law Enforcement)	3	27.3%
Medical (Doctor/Nurse/Social Worker/Psychiatric Nurse/Community Health/Pharmacy)	1	9.1%
School (Administrator/Counselor/Teacher/Aide/Social Worker)	1	9.1%
Treatment Agency (Mental Health/SUD/HSC/EAP/Therapist/Counselor/Case Manager/Domestic Violence)	1	9.1%
<b>Total</b>	<b>11</b>	<b>100.0%</b>

## Familiarity with Services

The following data reflect stakeholders' perceptions regarding treatment services provided by accredited agencies.

Regarding Familiarity with Services, stakeholders were asked, "How familiar are you with the services that are offered by this treatment provider?"

The majority of stakeholders indicated they were very or extremely familiar with services.

### Familiarity with Services

Stakeholder Type	1. Extremely Familiar	2. Very Familiar	Total
Court Staff- State and Federal	60.0%	40.0%	100.0%
Law Enforcement		100.0%	100.0%
Medical Providers	100.0%		100.0%
Schools		100.0%	100.0%
Treatment Agencies	100.0%		100.0%
<b>Total</b>	<b>45.5%</b>	<b>54.5%</b>	<b>100.0%</b>

## Staff Respectfulness

The following data reflect stakeholders' perceptions regarding treatment services provided by accredited agencies.

Regarding Staff Respectfulness, stakeholders were asked to rate how much they agree with the following statement: "Staff at this provider are respectful."

The majority of stakeholders agreed or strongly agreed staff members are respectful.

### Staff Are Respectful

Stakeholder Type	1. Strongly Agree	2. Agree	4. Disagree	Total
Court Staff- State and Federal	20.0%	60.0%	20.0%	100.0%
Law Enforcement	33.3%	66.7%		100.0%
Medical Providers	100.0%			100.0%
Schools		100.0%		100.0%
Treatment Agencies		100.0%		100.0%
<b>Total</b>	<b>27.3%</b>	<b>63.6%</b>	<b>9.1%</b>	<b>100.0%</b>

## Staff Training

The following data reflect stakeholders' perceptions regarding treatment services provided by accredited agencies.

Regarding Staff Training, stakeholders were asked to rate how much they agree with the following statement: "Staff at this provider are well trained."

The majority of stakeholders agreed or strongly agreed staff members are well trained.

### Staff Are Well Trained

Stakeholder Type	1. Strongly Agree	2. Agree	5. Strongly Disagree	Total
Court Staff- State and Federal	20.0%	60.0%	20.0%	100.0%
Law Enforcement	33.3%	66.7%		100.0%
Medical Providers	100.0%			100.0%
Schools			100.0%	100.0%
Treatment Agencies		100.0%		100.0%
<b>Total</b>	<b>27.3%</b>	<b>54.5%</b>	<b>18.2%</b>	<b>100.0%</b>

## Staff Communication

The following data reflect stakeholders' perceptions regarding treatment services provided by accredited agencies.

Regarding Staff Communication, stakeholders were asked to rate how much they agree with the following statement: "Staff actively communicate regarding clients' treatment."

The majority of stakeholders agreed or strongly agreed staff members actively communicate with them about their referred clients' treatment.

### Staff Actively Communicate

Stakeholder Type	1. Strongly Agree	2. Agree	3. Undecided	5. Strongly Disagree	Total
Court Staff- State and Federal	20.0%	60.0%	20.0%		100.0%
Law Enforcement	50.0%	50.0%			100.0%
Medical Providers	100.0%				100.0%
Schools				100.0%	100.0%
Treatment Agencies		100.0%			100.0%
<b>Total</b>	<b>30.0%</b>	<b>50.0%</b>	<b>10.0%</b>	<b>10.0%</b>	<b>100.0%</b>

## Staff Competency

The following data reflect stakeholders' perceptions regarding treatment services provided by accredited agencies.

Regarding Staff Competency, stakeholders were asked to rate how much they agree with the following statement: "Staff at this provider are competent to deliver treatment services."

The majority of stakeholders agreed or strongly agreed staff members are competent to deliver treatment services.

### Staff Are Competent to Deliver Treatment Services

Stakeholder Type	1. Strongly Agree	2. Agree	4. Disagree	5. Strongly Disagree	Total
Court Staff- State and Federal	20.0%	60.0%		20.0%	100.0%
Law Enforcement	33.3%	66.7%			100.0%
Medical Providers	100.0%				100.0%
Schools			100.0%		100.0%
Treatment Agencies		100.0%			100.0%
<b>Total</b>	<b>27.3%</b>	<b>54.5%</b>	<b>9.1%</b>	<b>9.1%</b>	<b>100.0%</b>

## Location of Services

The following data reflect stakeholders' perceptions regarding treatment services provided by accredited agencies.

Regarding Location of Services, stakeholders were asked to rate how much they agree with the following statement: "The location of services are convenient for clients."

The majority of stakeholders agreed or strongly agreed that the location of services are convenient for clients.

### Location of Services are Convenient for Clients

Stakeholder Type	1. Strongly Agree	2. Agree	3. Undecided	Total
Court Staff- State and Federal		100.0%		100.0%
Law Enforcement	33.3%	66.7%		100.0%
Medical Providers	100.0%			100.0%
Schools			100.0%	100.0%
Treatment Agencies	100.0%			100.0%
<b>Total</b>	<b>27.3%</b>	<b>63.6%</b>	<b>9.1%</b>	<b>100.0%</b>

## Service Availability

The following data reflect stakeholders' perceptions regarding treatment services provided by accredited agencies.

Regarding Service Availability, stakeholders were asked to rate how much they agree with the following statement: "Services are available at times that are convenient for clients."

The majority of stakeholders agreed or strongly agreed that services are available at times that are convenient for clients.

### Services Are Available at Times Convenient for Clients

Stakeholder Type	1. Strongly Agree	2. Agree	3. Undecided	Total
Court Staff- State and Federal	20.0%	40.0%	40.0%	100.0%
Law Enforcement		100.0%		100.0%
Medical Providers	100.0%			100.0%
Schools		100.0%		100.0%
Treatment Agencies		100.0%		100.0%
<b>Total</b>	<b>18.2%</b>	<b>63.6%</b>	<b>18.2%</b>	<b>100.0%</b>

## Community Responsiveness

The following data reflect stakeholders' perceptions regarding treatment services provided by accredited agencies.

Regarding Community Responsiveness, stakeholders were asked to rate how much they agree with the following statement: "This provider is responsive to the needs within the community."

The majority of stakeholders agreed or strongly agreed that providers are responsive to the needs within the communities.

### Provider is Responsive to the Needs Within the Community

Stakeholder Type	1. Strongly Agree	2. Agree	4. Disagree	5. Strongly Disagree	Total
Court Staff- State and Federal	20.0%	40.0%	20.0%	20.0%	100.0%
Law Enforcement	33.3%	66.7%			100.0%
Medical Providers	100.0%				100.0%
Schools			100.0%		100.0%
Treatment Agencies	100.0%				100.0%
<b>Total</b>	<b>36.4%</b>	<b>36.4%</b>	<b>18.2%</b>	<b>9.1%</b>	<b>100.0%</b>

## Supportiveness of Clients' Needs

The following data reflect stakeholders' perceptions regarding treatment services provided by accredited agencies.

Regarding Supportiveness of Clients' Needs, stakeholders were asked to rate how much they agree with the following statement: "The provider is supportive of clients' needs."

The majority of stakeholders agreed or strongly agreed that providers are supportive of referred clients' needs.

### Provider is Supportive of Clients' Needs

Stakeholder Type	1. Strongly Agree	2. Agree	3. Undecided	4. Disagree	Total
Court Staff- State and Federal	20.0%	40.0%	20.0%	20.0%	100.0%
Law Enforcement	33.3%	66.7%			100.0%
Medical Providers	100.0%				100.0%
Schools				100.0%	100.0%
Treatment Agencies		100.0%			100.0%
<b>Total</b>	<b>27.3%</b>	<b>45.5%</b>	<b>9.1%</b>	<b>18.2%</b>	<b>100.0%</b>

## Quality of Services

The following data reflect stakeholders' perceptions regarding treatment services provided by accredited agencies.

Regarding Quality of Services, stakeholders were asked to rate how much they agree with the following statement: "This provider delivers quality services."

The majority of stakeholders agreed or strongly agreed that quality services are provided.

### Provider Provides Quality Services

Stakeholder Type	1. Strongly Agree	2. Agree	4. Disagree	5. Strongly Disagree	Total
Court Staff- State and Federal	20.0%	60.0%		20.0%	100.0%
Law Enforcement	33.3%	66.7%			100.0%
Medical Providers	100.0%				100.0%
Schools			100.0%		100.0%
Treatment Agencies		100.0%			100.0%
<b>Total</b>	<b>27.3%</b>	<b>54.5%</b>	<b>9.1%</b>	<b>9.1%</b>	<b>100.0%</b>

## Provider Responsiveness

The following data reflect stakeholders' perceptions regarding treatment services provided by accredited agencies.

Regarding Provider Responsiveness, stakeholders were asked to rate how much they agree with the following statement: "Overall, the provider has been responsive to my questions and concerns."

The majority of stakeholders agreed or strongly agreed that providers are responsive to their questions and concerns.

### Provider Has Been Responsive To My Questions and Concerns

Stakeholder Type	1. Strongly Agree	2. Agree	4. Disagree	5. Strongly Disagree	Total
Court Staff- State and Federal	20.0%	40.0%	20.0%	20.0%	100.0%
Law Enforcement	33.3%	66.7%			100.0%
Medical Providers	100.0%				100.0%
Schools			100.0%		100.0%
Treatment Agencies	100.0%				100.0%
<b>Total</b>	<b>36.4%</b>	<b>36.4%</b>	<b>18.2%</b>	<b>9.1%</b>	<b>100.0%</b>

## Satisfaction of Outcomes

The following data reflect stakeholders' perceptions regarding treatment services provided by accredited agencies.

Regarding Satisfaction of Outcomes, stakeholders were asked to rate how much they agree with the following statement: "Clients report satisfaction with the outcome of services."

The majority of stakeholders agreed or strongly agreed that clients experienced satisfaction of outcomes.

### Clients Report Satisfaction of Outcomes

Stakeholder Type	1. Strongly Agree	2. Agree	3. Undecided	4. Disagree	5. Strongly Disagree	Total
Court Staff- State and Federal		40.0%	20.0%	20.0%	20.0%	100.0%
Law Enforcement		100.0%				100.0%
Medical Providers	100.0%					100.0%
Schools			100.0%			100.0%
Treatment Agencies			100.0%			100.0%
<b>Total</b>	<b>9.1%</b>	<b>45.5%</b>	<b>27.3%</b>	<b>9.1%</b>	<b>9.1%</b>	<b>100.0%</b>

County of Residence for Clients Who Received Publicly Funded Services

Treatment Services	Publicly Funded Clients Served	Average Duration of Treatment (Days)
Clinically Managed Low Intensity Residential Services (3.1)	90	49
Evidence-Based SUD Treatment for Justice-Involved Adults	57	78
Intensive Inpatient Treatment (3.7)	97	39
Intensive Meth Treatment (IMT)	80	86
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	215	67

Unduplicated Clients Served  
(Publicly Funded)

396

Publicly Funded Clients Served with  
Co-Occurring Mental Health Conditions

150

Veterans Served (Publicly Funded)

11

Pregnant Clients Served (Publicly Funded)

11

Data are reported in this section for clients ages 18 or older. Depending on specific needs and prior admissions, an 18 year-old client may have received a youth service. Data represent clients served in publicly funded services (i.e., Medicaid or state funds).

## Race & Ethnicity

The data below reflect the self-reported race and ethnicity of adults served in publicly funded treatment services.

According to the U.S. Census Bureau, 84.2% of South Dakotans identify as White, 8.5% identify as American Indian, and 5.1% identify as Hispanic.

### Clients Served by Race

### Clients Served by Ethnicity

### Clients Served by Service Type and Race

Treatment Services	2+ Races		American Indian		Black		Other		White		Total	
	N	%	N	%	N	%	N	%	N	%	N	%

## Reason for Discharge

The data below reflect the reasons adult clients discharged from publicly funded treatment services.

Please note, a client may have more than one admission and discharge.

The national rate for successful treatment completion for adult and youth clients was 35%.

The majority of adults successfully completed treatment services. The next most common discharge reason was Left Against Professional Advice.

### Reason for Discharge from Services

### Reason for Discharge by Service Type

Treatment Services	Incarcerated		Left Against Professional Advice		Other		Terminated by Facility		Transferred		Treatment Completed		Total	
	N	%	N	%	N	%	N	%	N	%	N	%	N	%
Clinically Managed Low Intensity Residential Services (3.1)			19	22.6%	3	3.6%	10	11.9%	3	3.6%	49	58.3%	84	100.0%

<b>Total</b>	<b>9</b>	<b>2.5%</b>	<b>100</b>	<b>28.0%</b>	<b>18</b>	<b>5.0%</b>	<b>36</b>	<b>10.1%</b>	<b>11</b>	<b>3.1%</b>	<b>183</b>	<b>51.3%</b>	<b>357</b>	<b>100.0%</b>

## Living Situation

The data below reflect the living situations of adults served in publicly funded treatment services.

The national rate of homelessness for adult and youth clients was 12%.

Most adults served in publicly funded treatment services had stable housing at discharge from services.

### Clients Who Gained, Lost, or Had No Change in Housing From Admission to Discharge

### Clients Who Reported Homelessness at Admission and Discharge

Treatment Services	Unduplicated Client Count	Homelessness at Admission	Homelessness at Discharge
Clinically Managed Low Intensity Residential Services (3.1)	83	16.6%	29.9%
Evidence-Based SUD Treatment for Justice-Involved Adults	56	3.9%	7.8%
Intensive Inpatient Treatment (3.7)	91	28.7%	44.1%
Intensive Meth Treatment (IMT)	70	26.7%	31.7%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	169	10.5%	18.2%
<b>Total</b>	<b>339</b>	<b>18.7%</b>	<b>29.9%</b>

## Employment

The data below reflect the employment status of adults served in publicly funded treatment services.

The national rate of employment for adult and youth clients was 22%.

The rate of employment for adults served in publicly funded treatment services increased.

### Clients Who Gained, Lost, or Had No Change in Employment From Admission to Discharge

### Client Employment at Admission and Discharge

Treatment Services	Unduplicated Client Count	Employment at Admission	Employment at Discharge
Clinically Managed Low Intensity Residential Services (3.1)	83	10.8%	36.3%
Evidence-Based SUD Treatment for Justice-Involved Adults	56	17.1%	56.6%
Intensive Inpatient Treatment (3.7)	90	10.2%	18.0%
Intensive Meth Treatment (IMT)	69	11.0%	36.4%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	168	29.4%	49.0%
<b>Total</b>	<b>337</b>	<b>17.4%</b>	<b>35.0%</b>

## Arrest History

Clients are asked at the start of treatment and at the end of treatment, "In the past 30 days, how many times have you been arrested?" Only clients who completed this question at time of admission and time of discharge are included.

Client responses on these surveys are then broken out by the type of treatment service they received.

The national rate of adult and youth clients with at least one arrest was 4%.

At discharge, adults served in publicly funded treatment services reported a decrease in arrests in the past 30 days.

### Clients Who Had More, Fewer, or the Same Number of Arrests at Discharge Compared to Admission

### Clients Who Had One or More Arrests Within 30 Days of Admission and Discharge

Treatment Services	Unduplicated Client Count	Arrest at Admission	Arrest at Discharge
Clinically Managed Low Intensity Residential Services (3.1)	33	27.5%	0.0%
Evidence-Based SUD Treatment for Justice-Involved Adults	26	10.7%	0.0%
Intensive Inpatient Treatment (3.7)	45	41.7%	2.1%
Intensive Meth Treatment (IMT)	17	23.5%	0.0%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	55	17.7%	0.0%
<b>Total</b>	<b>123</b>	<b>22.4%</b>	<b>0.7%</b>

## General Health

Clients are asked at the start of treatment and at the end of treatment, "Would you say that in general your health is?" Clients could answer in a range from 1-"Poor" to 5-"Excellent". Only clients who completed this question at time of admission and time of discharge are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported an increase in their general health.

### Clients Who Had Better, Worse, or the Same General Health Rating at Discharge Compared to Admission

### General Health Rating: 1-Poor; 2-Fair; 3-Good; 4-Very Good; 5-Excellent

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	35	3.12	3.67	0.55	17.6%
Evidence-Based SUD Treatment for Justice-Involved Adults	28	3.30	3.53	0.23	7.1%
Intensive Inpatient Treatment (3.7)	46	2.82	3.37	0.55	19.6%
Intensive Meth Treatment (IMT)	18	3.28	3.67	0.39	11.9%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	56	3.19	3.63	0.44	13.9%
<b>Total</b>	<b>128</b>	<b>3.09</b>	<b>3.55</b>	<b>0.46</b>	<b>14.9%</b>

## Physical Health

Clients are asked at the start of treatment and at the end of treatment, "Now thinking about your physical health, which includes physical illness and injury, how many days during the past 30 days was your physical health not good?" Only clients who completed this question at time of admission and time of discharge are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported a decrease in days spent in poor physical health.

### Clients Who Had More, Fewer, or the Same Number of Days Spent in Poor Physical Health at Discharge Compared to Admission

### How Many Days Within the Past 30 Days Have You Spent in Poor Physical Health?

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	33	3.98	2.30	-1.68	-42.1%
Evidence-Based SUD Treatment for Justice-Involved Adults	23	1.12	0.76	-0.36	-32.1%
Intensive Inpatient Treatment (3.7)	46	6.98	2.49	-4.49	-64.3%
Intensive Meth Treatment (IMT)	17	2.53	3.76	1.24	48.8%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	55	3.32	1.61	-1.71	-51.5%
<b>Total</b>	<b>121</b>	<b>3.80</b>	<b>2.01</b>	<b>-1.80</b>	<b>-47.2%</b>

## Mental Health

Clients are asked at the start of treatment and at the end of treatment, "Now thinking about your mental health, which includes stress, depression, and problems with emotions, how many days during the past 30 days was your mental health not good?" Only clients who completed this question at time of admission and time of discharge are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported a decrease in days of poor mental health.

### Clients Who Had More, Fewer, or the Same Number of Days Spent in Poor Mental Health at Discharge Compared to Admission

### How Many Days Within the Past 30 Days Have You Spent in Poor Mental Health?

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	33	10.63	3.10	-7.53	-70.8%
Evidence-Based SUD Treatment for Justice-Involved Adults	23	7.36	2.24	-5.12	-69.6%
Intensive Inpatient Treatment (3.7)	46	13.31	4.61	-8.69	-65.3%
Intensive Meth Treatment (IMT)	18	10.67	4.17	-6.50	-60.9%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	55	8.84	2.39	-6.45	-73.0%
<b>Total</b>	<b>122</b>	<b>9.75</b>	<b>3.29</b>	<b>-6.47</b>	<b>-66.3%</b>

## Physical or Mental Health Prevented Normal Activities

Clients are asked at the start of treatment and at the end of treatment, "During the past 30 days, approximately how many days did your poor physical or mental health keep you from doing your usual activities, such as self-care, work, or recreation?" Only clients who completed this question at time of admission and time of discharge are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported a decrease in days in which their physical or mental health prevented them from engaging in normal activities.

Clients Who Had More, Fewer, or the Same Number of Days Where Their Poor Physical or Mental Health Prevented Normal Activities at Discharge Compared to Admission

### Number of Days Poor Physical or Mental Health Prevented Normal Activities

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	33	4.88	0.85	-4.03	-82.6%
Evidence-Based SUD Treatment for Justice-Involved Adults	23	3.44	0.56	-2.88	-83.7%
Intensive Inpatient Treatment (3.7)	46	8.35	2.20	-6.14	-73.6%
Intensive Meth Treatment (IMT)	18	7.33	4.33	-3.00	-40.9%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	55	3.95	1.21	-2.74	-69.4%
<b>Total</b>	<b>122</b>	<b>5.39</b>	<b>1.73</b>	<b>-3.66</b>	<b>-67.9%</b>

## Reported Attempts to Die by Suicide

Clients are asked at the start of treatment and at the end of treatment, "How many times have you tried to commit suicide in the past 30 days?" Only clients who completed this question at time of admission and time of discharge are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

If you, or someone you know, is in need of crisis support, or experiencing emotional distress, call or text 988, or chat at <https://988lifeline.org/>.

At discharge, adults served in publicly funded treatment services reported a decrease in attempts to die by suicide in the past 30 days.

### Clients Who Had More, Fewer, or the Same Number of Attempts to Die by Suicide in the Past 30 Days

### In the Past 30 Days How Many Times Have You Attempted to Die by Suicide?

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	31	0.35	0.00	-0.35	-100.0%
Evidence-Based SUD Treatment for Justice-Involved Adults	27	0.03	0.00	-0.03	-100.0%

Intensive Meth Treatment (IMT)	16	0.00	0.00	0.00	NaN
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	53	0.22	0.00	-0.22	-100.0%
<b>Total</b>	<b>120</b>	<b>0.19</b>	<b>0.02</b>	<b>-0.18</b>	<b>-92.0%</b>

## Ability to Control Alcohol Use

Clients are asked at the end of treatment to rate their ability to control their alcohol use before the program and after the program. They rate each question on a scale from 1-"Poor" to 4-"Excellent."

Only clients with a primary alcohol use disorder are included in this outcome measure. Clients with primary non-alcohol use disorder rate their ability to control their drug use specifically on the following page.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services rated their ability to control their alcohol use higher at discharge.

### Ability to Control Alcohol Use

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

### Ability to Control Alcohol Use Ratings: 1-Poor; 2-Average; 3-Good; 4-Excellent

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	24	1.77	3.57	1.80	101.9%
Evidence-Based SUD Treatment for Justice-Involved Adults	17	1.63	3.68	2.05	125.8%
Intensive Inpatient Treatment (3.7)	31	1.91	3.70	1.79	93.7%
Intensive Meth Treatment (IMT)	2	2.00	4.00	2.00	100.0%

## Treatment Engagement

Clinicians are asked at the start of the client's treatment and at the end of treatment, "At this interval period, what is your (clinician's) assessment of the client's understanding and willingness to engage in their treatment program?" Clinicians may answer in a range from 1- "Unengaged" to 5- "Optimal Engagement." Only clients who completed this question at time of admission and time of discharge are included.

Responses on these surveys are then broken out by the type of treatment service the client received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Clinicians serving adults in publicly funded treatment services reported a decrease in levels of engagement.

### Clinician's Assessment of Client's Understanding and Willingness to Engage in Treatment

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

### Engagement Ratings: 1-Unengaged; 2-Minimal; 3-Limited; 4-Positive; 5-Optimal

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	35	3.90	3.86	-0.05	-1.2%

Intensive Meth Treatment (IMT)	18	3.94	3.67	-0.28	-7.0%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	56	3.92	3.86	-0.06	-1.6%
<b>Total</b>	<b>128</b>	<b>3.91</b>	<b>3.83</b>	<b>-0.09</b>	<b>-2.2%</b>

## Importance of Changing Current Behaviors

Clients are asked at the start of treatment and at the end of treatment to rate how important it is that they change their current behaviors and/or symptoms. They rate this question on a scale from 0-"Not Important at All" to 10-"Most Important Thing in My Life Right Now." To see specific question, please see Appendix B.

Clients' responses on these surveys are then broken out by primary diagnosis (bar chart) and by type of service received (table).

Adults served in publicly funded treatment services reported a decrease in their self-rated importance of changing current behaviors.

### Self-Rated Importance in Changing Current Behaviors

### Importance of Changing Behavior Ratings: 0-"Not Important at All" to 10-"Most Important Thing in My Life Right Now"

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	35	8.79	8.64	-0.14	-1.6%
Evidence-Based SUD Treatment for Justice-Involved Adults	27	8.48	8.59	0.10	1.2%
Intensive Inpatient Treatment (3.7)	46	8.98	8.63	-0.35	-3.9%
Intensive Meth Treatment (IMT)	18	8.39	8.22	-0.17	-2.0%

<b>Total</b>	<b>127</b>	<b>8.54</b>	<b>8.38</b>	<b>-0.17</b>	<b>-2.0%</b>

## Motivation to Change Current Behaviors

Clients are asked at the start of treatment and at the end of treatment to rate their motivation to change their current behaviors and/or symptoms. They rate this question on a scale from 0-"Not Important at All" to 10-"Most Important Thing in My Life Right Now."

Clients' responses on these surveys are then broken out by primary diagnosis (bar chart) and by type of service received (table).

Adults served in publicly funded treatment services reported an increase in their self-rated motivation to change current behaviors.

### Self-Rated Motivation to Change Current Behaviors and/or Symptoms

### Motivation to Change Behavior Ratings: 0-"Not Important at All" to 10-"Most Important Thing in My Life Right Now"

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	35	8.57	8.90	0.33	3.9%
Evidence-Based SUD Treatment for Justice-Involved Adults	27	8.59	8.41	-0.17	-2.0%
Intensive Inpatient Treatment (3.7)	46	8.20	8.31	0.10	1.2%
Intensive Meth Treatment (IMT)	18	8.56	8.39	-0.17	-1.9%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	56	8.57	8.94	0.37	4.3%
<b>Total</b>	<b>127</b>	<b>8.50</b>	<b>8.51</b>	<b>0.01</b>	<b>0.1%</b>

## Confidence to Control Use Under Stress and Peer Pressure

Clients are asked at the start of treatment and at the end of treatment to rate their confidence in their ability to control use under different stressful situations, including peer pressure. They rate each question on a scale from 0-"Not at All Confident" to 10-"Very Confident." The average of these four questions is taken at time of admission (average initial) and at time of discharge (average discharge). To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by primary diagnosis (bar chart) and by type of service received (table).

Adults served in publicly funded treatment services reported an increase in their self-rated confidence to control use under stress and peer pressure.

### Self-Rated Confidence to Control Substance Use

### Confidence to Control Use Ratings: 0-"Not at All Confident" to 10-"Very Confident"

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	34	6.23	8.35	2.13	34.2%
Evidence-Based SUD Treatment for Justice-Involved Adults	26	7.30	8.83	1.53	20.9%
Intensive Inpatient Treatment (3.7)	46	5.65	7.96	2.31	40.9%
Intensive Meth Treatment (IMT)	18	6.01	7.86	1.85	30.7%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	56	7.16	8.52	1.36	18.9%
<b>Total</b>	<b>126</b>	<b>6.61</b>	<b>8.42</b>	<b>1.81</b>	<b>27.4%</b>

## Visits to Emergency Department

Clients are asked at the start of treatment and at the end of treatment, "How many times have you gone to an emergency room for a psychiatric or emotional problem in the past 30 days?" Only clients who completed this question at time of admission and time of discharge are included.

Clients who had at least one emergency department visit prior to receiving treatment services are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

At discharge, adults served in publicly funded treatment services reported a decrease in emergency department visits in the past 30 days.

Clients Who Had More, Fewer, or the Same Number of Visits to the Emergency Department at Discharge Compared to Admission

● Fewer

How Many Times in the Past 30 Days Have You Visited the Emergency Department?

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	3	4.25	0.00	-4.25	-100.0%
Intensive Inpatient Treatment (3.7)	5	3.40	0.00	-3.40	-100.0%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	3	4.25	0.00	-4.25	-100.0%
<b>Total</b>	<b>7</b>	<b>4.13</b>	<b>0.00</b>	<b>-4.13</b>	<b>-100.0%</b>

## Detoxification Services

Clients are asked at the start of treatment and at the end of treatment, "How many nights have you spent in a facility for detoxification in the past 30 days?" Only clients who completed this question at time of admission and time of discharge are included.

Clients who had at least one night in a facility for detoxification prior to receiving treatment services are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

At discharge, adults served in publicly funded treatment services reported a decrease in nights spent in a detox facility in the past 30 days.

### Clients Who Had More, Fewer, or the Same Number of Nights Spent in a Facility for Detoxification at Discharge Compared to Admission

### How Many Nights in the Past 30 Days Have You Spent in a Facility for Detoxification?

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	7	5.33	0.00	-5.33	-100.0%
Intensive Inpatient Treatment (3.7)	8	6.88	0.88	-6.00	-87.3%
Intensive Meth Treatment (IMT)	6	4.00	0.00	-4.00	-100.0%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	7	5.33	0.00	-5.33	-100.0%
<b>Total</b>	<b>19</b>	<b>5.38</b>	<b>0.33</b>	<b>-5.05</b>	<b>-93.8%</b>

## Inpatient Substance Use Disorder Treatment Services

Clients are asked at the start of treatment and at the end of treatment, "How many nights have you spent in a facility for inpatient/residential substance use disorder treatment in the past 30 days?" Only clients who completed this question at time of admission and time of discharge are included.

Clients who had at least one night in a facility for substance use treatment prior to receiving treatment services are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

At discharge, adults served in publicly funded treatment services reported an increase in nights spent in an inpatient substance use disorder facility in the past 30 days.

Clients Who Had More, Fewer, or the Same Number of Nights Spent in a Facility for Inpatient/Residential Substance Use Disorder Treatment at Discharge Compared to Admission

How Many Nights in the Past 30 Days Have You Spent in a Facility for Inpatient/Residential Substance Use Disorder Treatment?

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	11	10.93	23.57	12.64	115.7%
Evidence-Based SUD Treatment for Justice-Involved Adults	1	4.00	0.00	-4.00	-100.0%
Intensive Inpatient Treatment (3.7)	12	9.69	25.85	16.15	166.7%

## Trouble as a Result of Substance Use

Clients are asked at the start of treatment and at the end of treatment, "Have you gotten in trouble at home, at school, work, or in the community, because of your use of alcohol, drugs, inhalants or gambling?" Only clients who completed this question at time of admission and time of discharge are included.

Clients' responses on these surveys are then broken out by the percentage of clients who responded "Yes" or "No" at time of admission and at time of discharge (donut chart) as well as the average responses and change from admission to discharge (table).

Adults served in publicly funded treatment services reported a decrease in getting into trouble due to their substance use.

Initial: Have You Gotten in Trouble at Work/School/Community Due to Substance Use or Gambling?

Discharge: Have You Gotten in Trouble at Work/School/Community Due to Substance Use or Gambling?

Have You Gotten in Trouble Because of Substance Use or Gambling? 1-"Yes"; 0-"No"

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change

## General Satisfaction with Services

Clients are asked at discharge to rate how strongly they agree with three different questions pertaining to their overall satisfaction with treatment services they received. The average of these three responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported satisfaction with the services they received.

Were You Satisfied With the Services You Received?

General Satisfaction Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	General Satisfaction with Services
Clinically Managed Low Intensity Residential Services (3.1)	35	4.29
Evidence-Based SUD Treatment for Justice-Involved Adults	28	4.18
Intensive Inpatient Treatment (3.7)	46	4.31
Intensive Meth Treatment (IMT)	18	4.44
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	56	4.35
<b>Total</b>	<b>128</b>	<b>4.29</b>

## Improved Functioning

Clients are asked at discharge to rate how strongly they agree with four different questions pertaining to their perception of their mental health and social well-being before and after the services they received. The average of these four responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported improved functioning as a result of services received.

### Improved Functioning

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

Improved Functioning Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	35	3.33	4.32	0.99	29.6%
Evidence-Based SUD Treatment for Justice-Involved Adults	28	4.11	4.35	0.24	5.9%
Intensive Inpatient Treatment (3.7)	46	3.39	4.33	0.94	27.9%
Intensive Meth Treatment (IMT)	18	3.53	4.61	1.08	30.7%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	56	3.62	4.35	0.73	20.0%
<b>Total</b>	<b>128</b>	<b>3.68</b>	<b>4.35</b>	<b>0.67</b>	<b>18.2%</b>

## Social Connectedness

Clients are asked at discharge to rate how strongly they agree with four different questions pertaining to their connections with their family, friends, and community. The average of these four responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported increased social connectedness.

### Social Connectedness

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

Social Connectedness Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Clinically Managed Low Intensity Residential Services (3.1)	35	3.35	4.22	0.88	26.2%
Evidence-Based SUD Treatment for Justice-Involved Adults	28	3.98	4.43	0.44	11.1%
Intensive Inpatient Treatment (3.7)	46	3.54	4.17	0.63	17.9%
Intensive Meth Treatment (IMT)	18	3.72	4.39	0.67	17.9%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1, & 2.5)	56	3.56	4.31	0.75	21.1%
<b>Total</b>	<b>128</b>	<b>3.65</b>	<b>4.28</b>	<b>0.63</b>	<b>17.2%</b>

## Participation in Treatment Planning and Outcomes of Services

Clients are asked at discharge to rate how strongly they agree with two different questions pertaining to their participation in treatment planning for services they received. The average of these two responses is given below.

Additionally, clients are asked at discharge to rate how strongly they agree with eight different questions pertaining to the outcomes of the services they received. The average of these eight responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported high levels of participation in treatment planning and good outcomes as a result of services received.

Participation in Treatment Planning

Outcomes of Treatment Services

Participation and Outcomes Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services

## Youth SUD Treatment Services

County of Residence for Clients Who Received Publicly Funded Services

### Treatment Services

Publicly Funded Clients Served    Average Duration of Treatment (Days)

Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)

9

43

Unduplicated Clients Served  
(Publicly Funded)

9

Publicly Funded Clients Served with  
Co-Occurring Mental Health Conditions

3

Veterans Served (Publicly Funded)

0

Pregnant Clients Served  
(Publicly Funded)

0

Clients described in this section started services when they were under 18 years of age. When a client turns 18, they are eligible to receive adult services and so a client may transfer from a youth service to an adult service during the treatment episode to best meet their needs. In the US, a 17 year old can join the military with guardian consent.

## Race & Ethnicity

The data below reflect the self-reported race and ethnicity of youth served in publicly funded treatment services.

According to the U.S. Census Bureau, 84.2% of South Dakotans identify as White, 8.5% identify as American Indian, and 5.1% identify as Hispanic.

Clients Served by Race

Clients Served by Ethnicity

Clients Served by Service Type and Race

Treatment Services	2+ Races		American Indian		White		Total	
	N	%	N	%	N	%	N	%
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	5	55.6%	2	22.2%	2	22.2%	9	100.0%
<b>Total</b>	<b>5</b>	<b>55.6%</b>	<b>2</b>	<b>22.2%</b>	<b>2</b>	<b>22.2%</b>	<b>9</b>	<b>100.0%</b>

## Gender

The data below reflect the self-reported gender of youth served in publicly funded treatment services. Gender categories follow SAMHSA guidelines for data reporting.

Clients Served by Self-Identified Gender

Clients Served by Service Type and Self-Identified Gender

Treatment Services	Female		Male		Total	
	N	%	N	%	N	%
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	5	55.6%	4	44.4%	9	100.0%
<b>Total</b>	<b>5</b>	<b>55.6%</b>	<b>4</b>	<b>44.4%</b>	<b>9</b>	<b>100.0%</b>

## Primary Diagnosis

The data below reflect the primary diagnoses of youth served in publicly funded treatment services. This does not include those with No Diagnosis or Diagnosis Deferred.

The majority of youth served had a primary diagnosis of Alcohol Use Disorder, followed by Cannabis Use Disorder.

### Clients Served for Each Primary Diagnosis

### Diagnosis by Service Type

Treatment Services	Alcohol Use Disorder		Cannabis Use Disorder		Total	
	N	%	N	%	N	%
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	5	55.6%	4	44.4%	9	100.0%
<b>Total</b>	<b>5</b>	<b>55.6%</b>	<b>4</b>	<b>44.4%</b>	<b>9</b>	<b>100.0%</b>

## Reason for Discharge

The data below reflect the reasons youth discharged from publicly funded treatment services.

Please note, a client may have more than one admission and discharge.

The national rate for successful treatment completion for adult and youth clients was 35%.

The majority of youth successfully completed treatment services. The next most common discharge reason was Left Against Professional Advice.

### Reason for Discharge From Services

### Reason for Discharge by Service Type

Treatment Services	Left Against Professional Advice		Transferred to Another Facility or Program		Treatment Completed		Total	
	N	%	N	%	N	%	N	%
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	33.3%	1	16.7%	3	50.0%	6	100.0%
<b>Total</b>	<b>2</b>	<b>33.3%</b>	<b>1</b>	<b>16.7%</b>	<b>3</b>	<b>50.0%</b>	<b>6</b>	<b>100.0%</b>

## Living Situation

The data below reflect the living situations of youth served in publicly funded treatment services.

The national rate of homelessness for adult and youth clients was 12%.

Less than 1% of youth served in publicly funded treatment services experienced homelessness at discharge from services.

### Clients Who Gained, Lost, or Had No Change in Housing From Admission to Discharge

### Clients Who Reported Homelessness at Admission and Discharge

Treatment Services	Unduplicated Client Count	Homelessness at Admission	Homelessness at Discharge
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	9	0.0%	0.0%
<b>Total</b>	<b>9</b>	<b>0.0%</b>	<b>0.0%</b>

## Employment

The data below reflect the employment status of youth served in publicly funded treatment services.

The rate of employment for the majority of youth served in publicly funded treatment services increased.

### Clients Who Gained, Lost, or Had No Change in Employment From Admission to Discharge

### Client Employment at Admission and Discharge

Treatment Services	Unduplicated Client Count	Employment at Admission	Employment at Discharge
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	6	0.0%	33.3%
<b>Total</b>	<b>6</b>	<b>0.0%</b>	<b>33.3%</b>

## Arrest History

The national rate of adult and youth clients with at least one arrest was 4%.

Clients are asked at the start of treatment and at the end of treatment, "In the past 30 days, how many times have you been arrested?" Only clients who completed this question at time of admission and time of discharge are included.

Client responses on these surveys are then broken out by the type of treatment service they received.

At discharge, no youth served in publicly funded treatment services reported an arrest in the past 30 days.

### Clients Who Had More, Fewer, or the Same Number of Arrests at Discharge Compared to Admission

● Same

### Clients Who Had One or More Arrests Within 30 Days of Admission and Discharge

Treatment Services	Unduplicated Client Count	Arrests at Admission	Arrests at Discharge
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	0.0%	0.0%
<b>Total</b>	<b>2</b>	<b>0.0%</b>	<b>0.0%</b>

## General Health

Clients are asked at the start of treatment and at the end of treatment, "Would you say that in general your health is?" Clients could answer in a range from 1-"Poor" to 5-"Excellent". Only clients who completed this question at time of admission and time of discharge are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services reported an increase in their general health.

### Clients Who Had Better, Worse, or the Same General Health Rating at Discharge Compared to Admission

### General Health Rating: 1-Poor; 2-Fair; 3-Good; 4-Very Good; 5-Excellent

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	3	3.00	3.20	0.20	6.7%
<b>Total</b>	<b>3</b>	<b>3.00</b>	<b>3.20</b>	<b>0.20</b>	<b>6.7%</b>

## Physical Health

Clients are asked at the start of treatment and at the end of treatment, "Now thinking about your physical health, which includes physical illness and injury, how many days during the past 30 days was your physical health not good?" Only clients who completed this question at time of admission and time of discharge are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services reported an increase in days in which their physical health prevented them from engaging in normal activities.

### Clients Who Had More, Fewer, or the Same Number of Days Spent in Poor Physical Health at Discharge Compared to Admission

### How Many Days Within the Past 30 Days Have You Spent in Poor Physical Health?

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	3	0.00	12.40	12.40	Infinity
<b>Total</b>	<b>3</b>	<b>0.00</b>	<b>12.40</b>	<b>12.40</b>	<b>Infinity</b>

## Mental Health

Clients are asked at the start of treatment and at the end of treatment, "Now thinking about your mental health, which includes stress, depression, and problems with emotions, how many days during the past 30 days was your mental health not good?" Only clients who completed this question at time of admission and time of discharge are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services reported a decrease in days of poor mental health.

### Clients Who Had More, Fewer, or the Same Number of Days Spent in Poor Mental Health at Discharge Compared to Admission

### How Many Days Within the Past 30 Days Have You Spent in Poor Mental Health?

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	3	24.00	19.00	-5.00	-20.8%
<b>Total</b>	<b>3</b>	<b>24.00</b>	<b>19.00</b>	<b>-5.00</b>	<b>-20.8%</b>

## Physical or Mental Health Prevented Normal Activities

Clients are asked at the start of treatment and at the end of treatment, "During the past 30 days, approximately how many days did your poor physical or mental health keep you from doing your usual activities, such as self-care, work, or recreation?" Only clients who completed this question at time of admission and time of discharge are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services reported a decrease in days in which their physical or mental health prevented them from engaging in normal activities.

Clients Who Had More, Fewer, or the Same Number of Days Where Their Poor Physical or Mental Health Prevented Normal Activities at Discharge Compared to Admission

### Number of Days Poor Physical or Mental Health Prevented Normal Activities

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	3	6.00	4.00	-2.00	-33.3%
<b>Total</b>	<b>3</b>	<b>6.00</b>	<b>4.00</b>	<b>-2.00</b>	<b>-33.3%</b>

## Reported Attempts to Die by Suicide

If you, or someone you know, is in need of crisis support, or experiencing emotional distress, call or text 988, or chat at <https://988lifeline.org/>.

Clients are asked at the start of treatment and at the end of treatment, "How many times have you tried to commit suicide in the past 30 days?" Only clients who completed this question at time of admission and time of discharge are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

At discharge, no youth served in publicly funded treatment services reported an attempt to die by suicide in the past 30 days.

### Clients Who Had More, Fewer, or the Same Number of Attempts to Die by Suicide in the Past 30 Days

● Same

100.0%

### In the Past 30 Days How Many Times Have You Attempted to Die by Suicide?

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	3	0.00	0.00	0.00	NaN
<b>Total</b>	<b>3</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>NaN</b>

## Ability to Control Alcohol Use

Clients are asked at the end of treatment to rate their ability to control their alcohol use before the program and after the program. They rate each question on a scale from 1-"Poor" to 4-"Excellent."

Only clients with a primary alcohol use disorder are included in this outcome measure. Clients with primary non-alcohol use disorder rate their ability to control their drug use specifically on the following page.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services rated their ability to control their alcohol use higher at discharge.

### Ability to Control Alcohol Use

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

### Ability to Control Alcohol Use Ratings: 1-Poor; 2-Average; 3-Good; 4-Excellent

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	3	2.00	3.60	1.60	80.0%
<b>Total</b>	<b>3</b>	<b>2.00</b>	<b>3.60</b>	<b>1.60</b>	<b>80.0%</b>

Ability to  
 Control Drug  
 Use

Clients are asked at the end of treatment to rate their ability to control their drug use before the program and after the program. They rate each question on a scale from 1-"Poor" to 4-"Excellent."

Only clients with primary non-alcohol use disorders are included in this outcome measure. Clients with primary alcohol use disorder rate their ability to control alcohol use specifically on the preceding page.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

There were no youth who completed both an admission outcome tool and discharge outcome tool for inclusion in this outcome.

Ability to Control Drug Use

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

Ability to Control Drug Use Ratings: 1-Poor; 2-Average; 3-Good; 4-Excellent

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
<div> <div>▲</div> <div>Total</div> </div>

 Number of Outcome Tools.

## Treatment Engagement

Clinicians are asked at the start of the client's treatment and at the end of treatment, "At this interval period, what is your (clinician's) assessment of the client's understanding and willingness to engage in their treatment program?" Clinicians may answer in a range from 1-"Unengaged" to 5-"Optimal Engagement". Only clients who completed this question at time of admission and time of discharge are included.

Responses on these surveys are then broken out by the type of treatment service the client received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Clinicians serving youth in publicly funded treatment services reported a decrease in levels of engagement.

### Clinician's Assessment of Client's Understanding and Willingness to Engage in Treatment

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

### Engagement Ratings: 1-Unengaged; 2-Minimal; 3-Limited; 4-Positive; 5-Optimal

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	3	3.80	3.40	-0.40	-10.5%
<b>Total</b>	<b>3</b>	<b>3.80</b>	<b>3.40</b>	<b>-0.40</b>	<b>-10.5%</b>

## Importance of Changing Current Behaviors

Clients are asked at the start of treatment and at the end of treatment to rate how important it is that they change their current behaviors and/or symptoms. They rate this question on a scale from 0-"Not Important at All" to 10-"Most Important Thing in My Life Right Now."

Clients' responses on these surveys are then broken out by primary diagnosis (bar chart) and by type of service received (table).

Youth served in publicly funded treatment services reported an increase in their self-rated importance of changing current behaviors.

### Self-Rated Importance in Changing Current Behaviors

### Importance of Changing Behavior Ratings: 0-"Not Important at All" to 10-"Most Important Thing in My Life Right Now"

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	3	7.80	8.20	0.40	5.1%
<b>Total</b>	<b>3</b>	<b>7.80</b>	<b>8.20</b>	<b>0.40</b>	<b>5.1%</b>

## Motivation to Change Current Behaviors

Clients are asked at the start of treatment and at the end of treatment to rate their motivation to change their current behaviors and/or symptoms. They rate this question on a scale from 0-"Not Important at All" to 10-"Most Important Thing in My Life Right Now."

Clients' responses on these surveys are then broken out by primary diagnosis (bar chart) and by type of service received (table).

Youth served in publicly funded treatment services reported a decrease in their self-rated motivation to change current behaviors.

### Self-Rated Motivation to Change Current Behaviors and/or Symptoms

### Motivation to Change Behavior Ratings: 0-"Not Important at All" to 10-"Most Important Thing in My Life Right Now"

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	3	7.20	6.80	-0.40	-5.6%
<b>Total</b>	<b>3</b>	<b>7.20</b>	<b>6.80</b>	<b>-0.40</b>	<b>-5.6%</b>

## Confidence to Control Use Under Stress and Peer Pressure

Clients are asked at the start of treatment and at the end of treatment to rate their confidence in their ability to control use under different stressful situations, including peer pressure. They rate each question on a scale from 0-"Not at All Confident" to 10-"Very Confident." The average of these four questions is taken at time of admission (average initial) and at time of discharge (average discharge). To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by primary diagnosis (bar chart) and by type of service received (table).

Youth served in publicly funded treatment services reported an increase in their self-rated confidence to control use under stress and peer pressure.

### Self-Rated Confidence to Control Substance Use

### Confidence to Control Use Ratings: 0-"Not at All Confident" to 10-"Very Confident"

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change

## General Satisfaction with Services

Clients are asked at discharge to rate how strongly they agree with six different questions pertaining to their overall satisfaction with treatment services they received. The average of these six responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services reported satisfaction with the services they received.

Were You Satisfied With the Services You Received?

General Satisfaction Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	General Satisfaction with Services
<div>▲</div> Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	3	4.83
<b>Total</b>	<b>3</b>	<b>4.83</b>

## Improved Functioning

Clients are asked at discharge to rate how strongly they agree with seven different questions pertaining to their perception of their mental health and social well-being before and after the services they received. The average of these seven responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services reported improved functioning as a result of services received.

### Improved Functioning

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

Improved Functioning Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change

## Internalizing Disorder

Youth clients complete the Global Appraisal of Individual Needs Short Screener (GAIN-SS) at admission and discharge.

Clients are asked to rate if they experienced various symptoms related to internalizing disorders within the last month. Examples of internalizing symptoms of disorders include feeling trapped, depressed, trouble sleeping, suicidal ideation, and uncontrollable thoughts. Client responses are scored on a range from 0-"No Symptoms" to 6-"All Symptoms." Only clients who had a score at time of admission and time of discharge are included. The average of these responses is given below.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services experienced a decrease in symptoms of internalizing disorders.

Clients Who Had More, Fewer, or the Same Number of Symptoms at Discharge Compared to Admission

Internalizing Disorder Range: 0-No Symptoms to 6-All Evaluated Symptoms

## Substance Use Disorder

Youth clients complete the Global Appraisal of Individual Needs Short Screener (GAIN-SS) at admission and discharge.

Clients are asked to rate if they experienced various symptoms related to substance use disorders within the last month. Examples of substance use disorder symptoms include alcohol and drug use, continued use despite causing social disruptions, reduced involvement in positive/productive hobbies, and withdrawal symptoms. Client responses are scored on a range from 0-"No Symptoms" to 6-"All Symptoms." Only clients who had a score at time of admission and time of discharge are included. The average of these responses is given below.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services experienced no change in symptoms of substance use disorders.

Clients Who Had More, Fewer, or the Same Number of Symptoms at Discharge Compared to Admission

Substance Use Disorder Range: 0-No Symptoms to 6-All Evaluated Symptoms

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	3	4.20	4.20	0.00	0.0%
<b>Total</b>	<b>3</b>	<b>4.20</b>	<b>4.20</b>	<b>0.00</b>	<b>0.0%</b>

## Crime and Violence

Youth clients complete the Global Appraisal of Individual Needs Short Screener (GAIN-SS) at admission and discharge.

Clients are asked to rate if they experienced various behaviors related to crime and violence within the last month. Examples of crime and violence include physically grabbing or shoving someone during a disagreement, driving while under the influence of illicit substances or alcohol, and stealing from a store. Client responses are scored on a range from 0-"No Symptoms" to 6-"All Symptoms." Only clients who had a score at time of admission and time of discharge are included. The average of these responses is given below.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services experienced no change in behaviors related to crime and violence.

Clients Who Had More, Fewer, or the Same Number of Behaviors at Discharge Compared to Admission

Crime and Violence Range: 0-No Symptoms to 6-All Evaluated Symptoms

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	3	4.60	4.60	0.00	0.0%

This section presents data on the family or guardian's perception of the outcomes and differences in the youth's behavior and substance use from the perspective of those who oversee or care for the youth.

# Arrest History

The national rate of adult and youth clients with at least one arrest at discharge was 4%.

Families of youth clients are asked at the start of treatment and at the end of treatment, "In the past 30 days, how many times has your child been arrested?" Only families of youth who completed this question at time of admission and time of discharge are included.

Families' responses on these surveys are then broken out by the type of treatment service their youth received.

At discharge, no families of youth served in publicly funded treatment services reported an arrest their youth experienced in the past 30 days.

Families Who Reported Youth Clients Had More, Fewer, or the Same Number of Arrests at Discharge Compared to Admission

Families Who Reported Youth Clients With One or More Arrests Within 30 Days of Admission and Discharge

Treatment Services	Unduplicated Client Count	Arrests at Admission	Arrests at Discharge
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	1	0.0%	0.0%
<b>Total</b>	<b>1</b>	<b>0.0%</b>	<b>0.0%</b>

## General Health

Families of youth clients are asked at the start of treatment and at the end of treatment, "Would you say that in general your child's health is?" Families of youth clients could answer in a range from 1-"Poor" to 5-"Excellent". Only families of youth who completed this question at time of admission and time of discharge are included.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported no change in their youth's general health.

### Families Who Reported Youth Clients Had Better, Worse, or the Same General Health Rating at Discharge Compared to Admission

General Health Rating: 1-Poor; 2-Fair; 3-Good; 4-Very Good; 5-Excellent

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2.0	3.00	3.00	0.00	0.0%
<b>Total</b>	<b>2.0</b>	<b>3.00</b>	<b>3.00</b>	<b>0.00</b>	<b>0.0%</b>

## Physical Health

Families of youth clients are asked at the start of treatment and at the end of treatment, "Now thinking about your child's physical health, which includes physical illness and injury, how many days during the past 30 days was your child's physical health not good?" Only families of youth who completed this question at time of admission and time of discharge are included.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported their youth had an increase in days spent in poor physical health.

### Families Who Reported Youth Clients Had More, Fewer, or the Same Number of Days Spent in Poor Physical Health at Discharge Compared to Admission

### How Many Days Within the Past 30 Days Has Your Child Spent in Poor Physical Health?

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	0.00	11.00	11.00	Infinity
<b>Total</b>	<b>2</b>	<b>0.00</b>	<b>11.00</b>	<b>11.00</b>	<b>Infinity</b>

## Mental Health

Families of youth clients are asked at the start of treatment and at the end of treatment, "Now thinking about your child's mental health, which includes stress, depression, and problems with emotions, how many days during the past 30 days was your child's mental health not good?" Only families of youth who completed this question at time of admission and time of discharge are included.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported their youth had a decrease in days of poor mental health.

Families Who Reported Youth Clients Had More, Fewer, or the Same Number of Days Spent in Poor Mental Health at Discharge Compared to Admission

How Many Days Within the Past 30 Days Has Your Child Spent in Poor Mental Health?

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	22.50	15.00	-7.50	-33.3%
<b>Total</b>	<b>2</b>	<b>22.50</b>	<b>15.00</b>	<b>-7.50</b>	<b>-33.3%</b>

## Physical or Mental Health Prevented Normal Activities

Families of youth clients are asked at the start of treatment and at the end of treatment, "During the past 30 days, approximately how many days did your child's poor physical or mental health keep them from doing your child's usual activities, such as self-care, work, or recreation?" Only families of youth who completed this question at time of admission and time of discharge are included.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported their youth had a decrease in days in which their physical or mental health prevented them from engaging in normal activities.

Families Who Reported Youth Clients Had More, Fewer, or the Same Number of Days Where Their Poor Physical or Mental Health Prevented Normal Activities at Discharge Compared to Admission

### Number of Days Poor Physical or Mental Health Prevented Normal Activities

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	7.50	1.00	-6.50	-86.7%
<b>Total</b>	<b>2</b>	<b>7.50</b>	<b>1.00</b>	<b>-6.50</b>	<b>-86.7%</b>

## Reported Attempts to Die by Suicide

If you, or someone you know, is in need of crisis support, or experiencing emotional distress, call or text 988, or chat at <https://988lifeline.org/>.

Families of youth clients are asked at the start of treatment and at the end of treatment, "How many times has your child tried to commit suicide in the past 30 days?" Only families of youth who completed this question at time of admission and time of discharge are included.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

At discharge, no families of youth served in publicly funded treatment services reported their youth had an attempt to die by suicide in the past 30 days.

Families Who Reported Youth Clients Had More, Fewer, or the Same Number of Attempts to Die by Suicide in the Past 30 Days

Same

In the Past 30 Days How Many Times Has Your Child Attempted to Die by Suicide?

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	0.00	0.00	0.00	NaN
<b>Total</b>	<b>2</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>NaN</b>

## Ability to Control Alcohol Use

Families of youth clients are asked at the end of treatment to rate their youth's ability to control their alcohol use before the program and after the program. They rate each question on a scale from 1-"Poor" to 4-"Excellent."

Only families of youth with a primary alcohol use disorder are included in this outcome measure. Families of youth with primary non-alcohol use disorder rate their youth's ability to control their drug use specifically on the following page.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services rated their youth's ability to control their alcohol use higher at discharge.

### Ability to Control Alcohol Use

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

### Ability to Control Alcohol Use Ratings: 1-Poor; 2-Average; 3-Good; 4-Excellent

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	2.00	3.50	1.50	75.0%
<b>Total</b>	<b>2</b>	<b>2.00</b>	<b>3.50</b>	<b>1.50</b>	<b>75.0%</b>

# Ability to Control Drug Use

Families of youth clients are asked at the end of treatment to rate their youth's ability to control their drug use before the program and after the program. They rate each question on a scale from 1-"Poor" to 4-"Excellent."

Only families of youth with primary non-alcohol use disorders are included in this outcome measure. Families of youth with primary alcohol use disorder rate their youth's ability to control alcohol use specifically on the preceding page.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

There were no families who completed both an admission outcome tool and discharge outcome tool for inclusion in this outcome.

## Ability to Control Drug Use

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

Ability to Control Drug Use Ratings: 1-Poor; 2-Average; 3-Good; 4-Excellent

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Total					

Unable to Report Due to Low Number of Outcome Tools.

## Treatment Engagement

Clinicians are asked at the start of the client's treatment and at the end of treatment, "At this interval period, what is your (clinician's) assessment of the client's understanding and willingness to engage in their treatment program?" Clinicians may answer in a range from 1- "Unengaged" to 5- "Optimal Engagement." Only clients who completed this question at time of admission and time of discharge are included.

Responses on these surveys are then broken out by the type of treatment service the client received. If the client received multiple types of treatment services in FY24, their responses are counted once in each service.

Clinicians serving youth in publicly funded treatment services reported an increase in levels of engagement.

### Clinician's Assessment of Client's Understanding and Willingness to Engage in Treatment

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

### Engagement Ratings: 1-Unengaged; 2-Minimal; 3-Limited; 4-Positive; 5-Optimal

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	3.50	4.00	0.50	14.3%
<b>Total</b>	<b>2</b>	<b>3.50</b>	<b>4.00</b>	<b>0.50</b>	<b>14.3%</b>

## Importance of Changing Current Behaviors

Families of youth clients are asked at the start of treatment and at the end of treatment to rate how important it is that their child change their current behaviors and/or symptoms. They rate this question on a scale from 0-"Not Important at All" to 10-"Most Important Thing in My Life Right Now."

Families' responses on these surveys are then broken out by primary diagnosis (bar chart) and by type of service received (table).

Families of youth served in publicly funded treatment services reported an increase in the importance of their youth changing their current behaviors.

### Importance in Changing Current Behaviors

### Importance of Changing Behavior Ratings: 0-"Not Important at All" to 10-"Most Important Thing in My Life Right Now"

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	7.00	8.00	1.00	14.3%
<b>Total</b>	<b>2</b>	<b>7.00</b>	<b>8.00</b>	<b>1.00</b>	<b>14.3%</b>

## Motivation to Change Current Behaviors

Families of youth clients are asked at the start of treatment and at the end of treatment to rate how confident they are in their youth changing current behaviors and/or symptoms. They rate this question on a scale from 0-"Not Important at All" to 10-"Most Important Thing in My Life Right Now."

Families' responses on these surveys are then broken out by primary diagnosis (bar chart) and by type of service received (table).

Families of youth served in publicly funded treatment services reported an increase in motivation for their youth to change their current behaviors.

### Motivation to Change Current Behaviors and/or Symptoms

### Motivation to Change Behavior Ratings: 0-"Not Important at All" to 10-"Most Important Thing in My Life Right Now"

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	7.00	7.50	0.50	7.1%
<b>Total</b>	<b>2</b>	<b>7.00</b>	<b>7.50</b>	<b>0.50</b>	<b>7.1%</b>

## Confidence to Control Use Under Stress and Peer Pressure

Families of youth clients are asked at the start of treatment and at the end of treatment to rate their confidence in their youth's ability to control use under different stressful situations, including peer pressure. They rate each question on a scale from 0-"Not at All Confident" to 10-"Very Confident." The average of these four questions is taken at time of admission (average initial) and at time of discharge (average discharge). To see specific questions, please see Appendix B.

Families' responses on these surveys are then broken out by primary diagnosis (bar chart) and by type of service received (table).

Families of youth served in publicly funded treatment services reported an increase in confidence in their youth to control use under stress and peer pressure.

### Confidence to Control Substance Use

### Confidence to Control Use Ratings: 0-"Not at All Confident" to 10-"Very Confident"

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	6.75	8.50	1.75	25.9%
<b>Total</b>	<b>2</b>	<b>6.75</b>	<b>8.50</b>	<b>1.75</b>	<b>25.9%</b>

# Visits to Emergency Department

Families of youth clients are asked at the start of treatment and at the end of treatment, "How many times has your child gone to an emergency room for a psychiatric or emotional problem in the past 30 days?" Only families of youth who completed this question at time of admission and time of discharge are included.

Families of youth clients who had at least one emergency department visit prior to receiving treatment services are included.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

There were no families who completed both an admission outcome tool and discharge outcome tool for inclusion in this outcome.

Families Who Reported Youth Clients Had More, Fewer, or the Same Number of Visits to the Emergency Department at Discharge Compared to Admission

<b>Total</b>	<b>2</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>NaN</b>

## General Satisfaction with Services

Families of youth clients are asked at discharge to rate how strongly they agree with six different questions pertaining to their overall satisfaction with treatment services their youth received. The average of these six responses is given below. To see specific questions, please see Appendix B.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported satisfaction with the services their youth received.

Were You Satisfied With the Services Your Child Received?

General Satisfaction Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	General Satisfaction with Services
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	4.75
<b>Total</b>	<b>2</b>	<b>4.75</b>

## Improved Functioning

Families of youth clients are asked at discharge to rate how strongly they agree with seven different questions pertaining to their perception of their youth's mental health and social well-being before and after the services they received. The average of these seven responses is given below. To see specific questions, please see Appendix B.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported their youth had improved functioning as a result of services received.

### Improved Functioning

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

Improved Functioning Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	3.79	4.14	0.36	9.4%
<b>Total</b>	<b>2</b>	<b>3.79</b>	<b>4.14</b>	<b>0.36</b>	<b>9.4%</b>

## Social Connectedness

Families of youth clients are asked at discharge to rate how strongly they agree with four different questions pertaining to their youth's connections with their family, friends, and community. The average of these four responses is given below. To see specific questions, please see Appendix B.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported improved social connectedness for their youth.

### Social Connectedness

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

Social Connectedness Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average Initial	Average Discharge	Change	Percent Change
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	4.38	4.63	0.25	5.7%
<b>Total</b>	<b>2</b>	<b>4.38</b>	<b>4.63</b>	<b>0.25</b>	<b>5.7%</b>

# Participation in Treatment Planning and Cultural Sensitivity of Staff

Families of youth clients are asked at discharge to rate how strongly they agree with three different questions pertaining to their participation in treatment planning for services their youth received. The average of these three responses is given below.

Additionally, families of youth clients are asked at discharge to rate how strongly they agree with four different questions pertaining to the cultural sensitivity of staff. The average of these four responses is given below. To see specific questions, please see Appendix B.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported high levels of participation in their youth's treatment planning and felt staff were culturally sensitive.

Participation in Treatment Planning

Cultural Sensitivity of Staff

Participation and Cultural Sensitivity Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Participation in Treatment Planning	Cultural Sensitivity of Staff
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	4.00	4.50
<b>Total</b>	<b>2</b>	<b>4.00</b>	<b>4.50</b>

# Access to Services

Families of youth clients are asked at discharge to rate how strongly they agree with two different questions pertaining to the ease and convenience of accessing the services their youth received. The average of these two responses is given below. To see specific questions, please see Appendix B.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported ease and convenience when accessing services.

Access to Services

Access to Services Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Access to Services
Outpatient and Intensive Outpatient Services (0.5, 1.0, & 2.1)	2	3.50
<b>Total</b>	<b>2</b>	<b>3.50</b>

## Living Situation

The data below reflect the living situations of adults served in publicly funded treatment services.

The national rate of homelessness for adult clients was 5.7%.

Most adults served in publicly funded treatment services reported a stable living situation at their most recent update.

### Housing Situation for Clients at Most Recent Update

### Clients Who Reported Homelessness at Admission, First Update, and Most Recent Update

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average of Most Recent Update
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	33	0.0%	2.6%	2.6%
Outpatient Services	2	0.0%	0.0%	0.0%
Room and Board and Other Services	10	0.0%	0.0%	0.0%
<b>Total</b>	<b>34</b>	<b>0.0%</b>	<b>2.6%</b>	<b>2.6%</b>

## Employment

The data below reflect the employment status of adults served in publicly funded treatment services.

The national rate of employment for adult clients was 28%.

At most recent update, the majority of adult clients were employed or otherwise not in the labor market.

### Employment Situation for Clients at Most Recent Update

### Client Employment at Admission, First Update, and Most Recent Update

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	33	2.9%	15.8%	15.8%
Outpatient Services	2	0.0%	0.0%	0.0%
Room and Board and Other Services	10	0.0%	10.0%	10.0%
<b>Total</b>	<b>34</b>	<b>2.9%</b>	<b>15.4%</b>	<b>15.4%</b>

## Arrest History

Clients are asked at the start of treatment and at their most recent update, "In the past 30 days, how many times have you been arrested?" Only clients who completed this question at time of admission and time of most recent update are included.

Client responses on these surveys are then broken out by the type of treatment service they received.

The national rate of adult clients with at least one arrest was 11%.

At most recent update, adults served in publicly funded treatment services reported a decrease in arrests in the past 30 days.

### Clients Who Had More, Fewer, or the Same Number of Arrests at Most Recent Update Compared to Admission

### Percent of Clients With at Least One Arrest Within the Past 30 Days

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	32	11.4%	5.7%	5.7%
Outpatient Services	1	0.0%	0.0%	0.0%
Room and Board and Other Services	10	0.0%	0.0%	0.0%
<b>Total</b>	<b>33</b>	<b>11.1%</b>	<b>5.6%</b>	<b>5.6%</b>

## General Health

Clients are asked at the start of treatment and at their most recent update, "Would you say that in general your health is?" Clients could answer in a range from 1-"Poor" to 5-"Excellent". Only clients who completed this question at time of admission and time of most recent update are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported an increase in their general health.

### Clients Who Had Better, Worse, or the Same General Health Rating at Most Recent Update Compared to Admission

### General Health Rating: 1-Poor; 2-Fair; 3-Good; 4-Very Good; 5-Excellent

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	32	2.59	2.59	2.59	0.00	0.0%
Outpatient Services	1	3.00	4.00	4.00	1.00	33.3%
Room and Board and Other Services	10	2.50	2.90	2.90	0.40	16.0%
<b>Total</b>	<b>33</b>	<b>2.61</b>	<b>2.63</b>	<b>2.63</b>	<b>0.03</b>	<b>1.0%</b>

## Physical Health

Clients are asked at the start of treatment and at their most recent update, "Now thinking about your physical health, which includes physical illness and injury, how many days during the past 30 days was your physical health not good?" Only clients who completed this question at time of admission and time of most recent update are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported a decrease in days spent in poor physical health.

### Clients Who Had More, Fewer, or the Same Number of Days Spent in Poor Physical Health at Most Recent Update Compared to Admission

### How Many Days Within the Past 30 Days Have You Spent in Poor Physical Health?

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	32	8.86	7.86	7.86	-1.00	-11.3%
Outpatient Services	1	20.00	21.00	21.00	1.00	5.0%
Room and Board and Other Services	10	5.90	6.60	6.60	0.70	11.9%
<b>Total</b>	<b>33</b>	<b>9.16</b>	<b>8.22</b>	<b>8.22</b>	<b>-0.95</b>	<b>-10.3%</b>

## Mental Health

Clients are asked at the start of treatment and at their most recent update, "Now thinking about your mental health, which includes stress, depression, and problems with emotions, how many days during the past 30 days was your mental health not good?" Only clients who completed this question at time of admission and time of most recent update are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported a decrease in days of poor mental health.

### Clients Who Had More, Fewer, or the Same Number of Days Spent in Poor Mental Health at Most Recent Update Compared to Admission

### How Many Days Within the Past 30 Days Have You Spent in Poor Mental Health?

## General Satisfaction with Services

Clients are asked at their most recent update to rate how strongly they agree with three different questions pertaining to their overall satisfaction with treatment services they received. The average of these three responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported satisfaction with the services they received.

Were You Satisfied With the Services You Received?

General Satisfaction Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average First Update	Average Most Recent Update
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	33	3.98	3.98
Outpatient Services	2	4.50	4.50
Room and Board and Other Services	10	4.03	4.03
<b>Total</b>	<b>34</b>	<b>3.98</b>	<b>3.98</b>

## Improved Functioning

Clients are asked at their most recent update to rate how strongly they agree with four different questions pertaining to their perception of their mental health and social well-being before and after the services they received. The average of these four responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported improved functioning as a result of services received.

### Improved Functioning

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

Improved Functioning Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	32	3.47	3.74	3.74	0.27	7.8%
Outpatient Services	1	2.75	3.25	3.25	0.50	18.2%
Room and Board and Other Services	10	3.63	3.75	3.75	0.13	3.4%
<b>Total</b>	<b>33</b>	<b>3.45</b>	<b>3.73</b>	<b>3.73</b>	<b>0.28</b>	<b>8.0%</b>

## Social Connectedness

Clients are asked at their most recent update to rate how strongly they agree with four different questions pertaining to their connections with their family, friends, and community. The average of these four responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported increased social connectedness.

### Social Connectedness

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

Social Connectedness Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	32	3.46	3.59	3.59	0.14	3.9%
Outpatient Services	1	3.50	3.75	3.75	0.25	7.1%
Room and Board and Other Services	10	3.68	3.68	3.68	0.00	0.0%
<b>Total</b>	<b>33</b>	<b>3.46</b>	<b>3.60</b>	<b>3.60</b>	<b>0.14</b>	<b>4.0%</b>

## Participation in Treatment Planning

Clients are asked at their most recent update to rate how strongly they agree with two different questions pertaining to their participation in treatment planning for services they received. The average of these two responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported high levels of participation in their treatment planning.

### Participation in Treatment Planning

Participation in Treatment Planning Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average First Update	Average Most Recent Update
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	33	3.86	3.86
Outpatient Services	2	4.25	4.25
Room and Board and Other Services	10	3.85	3.85
<b>Total</b>	<b>34</b>	<b>3.86</b>	<b>3.86</b>

## Access to Services

Clients are asked at their most recent update to rate how strongly they agree with five different questions pertaining to the ease and convenience of accessing the services they received. The average of these five responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported ease and convenience when accessing services.

### Access to Services

Access to Services Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average First Update	Average Most Recent Update
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	33	3.95	3.95
Outpatient Services	2	3.60	3.60
Room and Board and Other Services	10	3.80	3.80
<b>Total</b>	<b>34</b>	<b>3.93</b>	<b>3.93</b>

## Quality and Appropriateness

Clients are asked at their most recent update to rate how strongly they agree with eight different questions pertaining to the quality and appropriateness of the services they received. The average of these eight responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported high quality and appropriateness of services.

### Quality and Appropriateness of Services

Quality/Appropriateness Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average First Update	Average Most Recent Update
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	33	3.79	3.79
Outpatient Services	2	3.94	3.94
Room and Board and Other Services	10	3.88	3.88
<b>Total</b>	<b>34</b>	<b>3.79</b>	<b>3.79</b>

## Outcomes

Clients are asked at their most recent update to rate how strongly they agree with eight different questions pertaining to the outcomes of services they received. The average of these eight responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Adults served in publicly funded treatment services reported good outcomes as a result of services received.

### Outcomes of Services

Outcomes of Services Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average First Update	Average Most Recent Update
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	33	3.28	3.28

# Youth MH Treatment Services

[Page intentionally left blank]

## Youth MH Treatment Services

County of Residence for Clients Who Received Publicly Funded Services

Treatment Services	Publicly Funded Clients Served	Average Duration of Treatment (Days)
Child or Youth and Family Services (CYF)	167	161
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	5	304
Intensive Family Services (IFS)	2	335
Outpatient Services	129	181
Room and Board and Other Services	2	0

Unduplicated Clients Served  
(Publicly Funded)

297

Publicly Funded Clients Served with  
Serious Emotional Disturbance (SED)

202

Veterans Served (Publicly Funded)

0

Publicly Funded Clients Who  
Successfully Completed Treatment

24

Clients described in this section started services when they were under 18 years of age. When a client turns 18, they are eligible to receive adult services and so a client may transfer from a youth service to an adult service during the treatment episode to best meet their needs. In the US, a 17 year old can serve in the military with guardian consent.

## Race & Ethnicity

The data below reflect the self-reported race and ethnicity of youth served in publicly funded treatment services.

According to the U.S. Census Bureau, 84.2% of South Dakotans identify as White, 8.5% identify as American Indian, and 5.1% identify as Hispanic.

### Clients Served by Race

### Clients Served by Ethnicity

### Clients Served by Service Type and Race

Treatment Services	2+ Races		American Indian		Black		Other		White		Total

<b>Total</b>	<b>3</b>	<b>0.0%</b>	<b>0.0%</b>	<b>0.0%</b>

## Employment

The data below reflect the employment status of youth served in publicly funded treatment services.

Most youth served in publicly funded treatment services were either students or employed.

### Employment Situation for Clients at Most Recent Update

### Client Employment at Admission, First Update, and Most Recent Update

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update
Child or Youth and Family Services (CYF)	3	0.0%	33.3%	33.3%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	0.0%	100.0%	100.0%
<b>Total</b>	<b>3</b>	<b>0.0%</b>	<b>33.3%</b>	<b>33.3%</b>

## Arrest History

Clients are asked at the start of treatment and at their most recent update, "In the past 30 days, how many times have you been arrested?" Only clients who completed this question at time of admission and time of most recent update are included.

Client responses on these surveys are then broken out by the type of treatment service they received.

The national rate of youth with at least one arrest was 1%.

At most recent update, no youth served in publicly funded treatment services reported an arrest in the past 30 days.

### Clients Who Had More, Fewer, or the Same Number of Arrests at Most Recent Update Compared to Admission

### Percent of Clients With At Least One Arrest Within the Past 30 Days

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update
Child or Youth and Family Services (CYF)	3	0.0%	0.0%	0.0%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	0.0%	0.0%	0.0%
<b>Total</b>	<b>3</b>	<b>0.0%</b>	<b>0.0%</b>	<b>0.0%</b>

## General Health

Clients are asked at the start of treatment and at their most recent update, "Would you say that in general your health is?" Clients could answer in a range from 1-"Poor" to 5-"Excellent". Only clients who completed this question at time of admission and time of most recent update are included.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

The majority of youth served in publicly funded treatment services reported an increase in general health.

### Clients Who Had Better, Worse, or the Same General Health Rating at Most Recent Update Compared to Admission

### General Health Rating: 1-Poor; 2-Fair; 3-Good; 4-Very Good; 5-Excellent

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change

## General Satisfaction with Services

Clients are asked at most their recent update to rate how strongly they agree with six different questions pertaining to their overall satisfaction with treatment services they received. The average of these six responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services reported satisfaction with the services they received.

Were You Satisfied With the Services You Received?

General Satisfaction Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average First Update	Average Most Recent Update
Child or Youth and Family Services (CYF)	3	4.17	4.17
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	3.67	3.67
<b>Total</b>	<b>3</b>	<b>4.17</b>	<b>4.17</b>

## Improved Functioning

Clients are asked at their most recent update to rate how strongly they agree with seven different questions pertaining to their perception of their mental health and social well-being before and after the services they received. The average of these seven responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services reported decreased functioning as a result of services received.

### Improved Functioning

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

Improved Functioning Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Child or Youth and Family Services (CYF)	3	3.52	3.33	3.33	-0.19	-5.4%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	3.29	3.00	3.00	-0.29	-8.7%
<b>Total</b>	<b>3</b>	<b>3.52</b>	<b>3.33</b>	<b>3.33</b>	<b>-0.19</b>	<b>-5.4%</b>

## Social Connectedness

Clients are asked at their most recent update to rate how strongly they agree with four different questions pertaining to their connections with their family, friends, and community. The average of these four responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services reported no change in social connectedness.

### Social Connectedness

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

Social Connectedness Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Child or Youth and Family Services (CYF)	3	3.83	3.83	3.83	0.00	0.0%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	3.50	3.75	3.75	0.25	7.1%
<b>Total</b>	<b>3</b>	<b>3.83</b>	<b>3.83</b>	<b>3.83</b>	<b>0.00</b>	<b>0.0%</b>

## Participation in Treatment Planning

Clients are asked at their most recent update to rate how strongly they agree with three different questions pertaining to their participation in treatment planning for services they received. The average of these three responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services reported high levels of participation in their treatment planning.

### Participation in Treatment Planning

Participation in Treatment Planning Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average First Update	Average Most Recent Update
Child or Youth and Family Services (CYF)	3	3.67	3.67
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	4.00	4.00
<b>Total</b>	<b>3</b>	<b>3.67</b>	<b>3.67</b>

## Cultural Sensitivity

Clients are asked at their most recent update to rate how strongly they agree with four different questions pertaining to the cultural sensitivity of staff. The average of these four responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services reported they felt staff were culturally sensitive.

### Cultural Sensitivity

Cultural Sensitivity Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average First Update	Average Most Recent Update
Child or Youth and Family Services (CYF)	3	4.17	4.17
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	4.00	4.00
<b>Total</b>	<b>3</b>	<b>4.17</b>	<b>4.17</b>

## Access to Services

Clients are asked at their most recent update to rate how strongly they agree with two different questions pertaining to the ease and convenience of accessing the services they received. The average of these two responses is given below. To see specific questions, please see Appendix B.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services reported ease and convenience when accessing services.

### Access to Services

Access to Services Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average First Update	Average Most Recent Update
Child or Youth and Family Services (CYF)	3	4.33	4.33

<b>Total</b>	<b>3</b>	<b>4.33</b>	<b>4.33</b>

## Internalizing Disorder

Youth clients complete the Global Appraisal of Individual Needs Short Screener (GAIN-SS) at admission and at most recent update.

Clients are asked to rate if they experienced various symptoms related to internalizing disorders within the last month. Examples of internalizing symptoms of disorders include feeling trapped, depressed, trouble sleeping, suicidal ideation, and uncontrollable thoughts. Client responses are scored on a range from 0-"No Symptoms" to 6-"All Symptoms." Only clients who had a score at time of admission and time of most recent update are included. The average of these responses is given below.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services experienced no change in symptoms of internalizing disorders.

Clients Who Had More, Fewer, or the Same Number of Symptoms at Most Recent Update Compared to Admission

Internalizing Disorder Range: 0-No Symptoms to 6-All Evaluated Symptoms

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Child or Youth and Family Services (CYF)	2	1.50	1.50	1.50	0.00	0.0%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	3.00	3.00	3.00	0.00	0.0%
<b>Total</b>	<b>2</b>	<b>1.50</b>	<b>1.50</b>	<b>1.50</b>	<b>0.00</b>	<b>0.0%</b>

## Externalizing Disorder

Youth clients complete the Global Appraisal of Individual Needs Short Screener (GAIN-SS) at admission and at most recent update.

Clients are asked to rate if they experienced various symptoms related to externalizing disorders within the last month. Examples of externalizing symptoms of disorders include lying, inattention at school, difficulty listening to instructions or waiting, threatening others, and fighting. Client responses are scored on a range from 0-"No Symptoms" to 6-"All Symptoms." Only clients who had a score at time of admission and time of most recent update are included. The average of these responses is given below.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services experienced a decrease in symptoms of externalizing disorders.

Clients Who Had More, Fewer, or the Same Number of Symptoms at Most Recent Update Compared to Admission

● Fewer

Externalizing Disorder Range: 0-No Symptoms to 6-All Evaluated Symptoms

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Difference	Percent Change
Child or Youth and Family Services (CYF)	2	4.50	1.50	1.50	-3.00	-66.7%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	6.00	3.00	3.00	-3.00	-50.0%
<b>Total</b>	<b>2</b>	<b>4.50</b>	<b>1.50</b>	<b>1.50</b>	<b>-3.00</b>	<b>-66.7%</b>

## Substance Use Disorder

Youth clients complete the Global Appraisal of Individual Needs Short Screener (GAIN-SS) at admission and at most recent update.

Clients are asked to rate if they experienced various symptoms related to substance use disorders within the last month. Examples of substance use disorder symptoms include alcohol and drug use, continued use despite causing social disruptions, reduced involvement in positive/productive hobbies, and withdrawal symptoms. Client responses are scored on a range from 0-"No Symptoms" to 6-"All Symptoms." Only clients who had a score at time of admission and time of most recent update are included. The average of these responses is given below.

Clients' responses on these surveys are then broken out by the type of treatment service they received. If they received multiple types of treatment services in FY24, their responses are counted once in each service.

Youth served in publicly funded treatment services experienced a decrease in symptoms of substance use disorders.

Clients Who Had More, Fewer, or the Same Number of Symptoms at Most Recent Update Compared to Admission

● Fewer

Substance Use Disorder Range: 0-No Symptoms to 6-All Evaluated Symptoms

This section presents data on the family or guardian's perception of the outcomes and differences in the youth's behavior and mental health from the perspective of those who oversee or care for the youth.

## Arrest History

The national rate of youth clients with at least one arrest was 1%.

Families of youth clients are asked at the start of treatment and at their most recent update, "In the past 30 days, how many times has your child been arrested?" Only families of youth who completed this question at time of admission and time of the most recent update are included.

Families' responses on these surveys are then broken out by the type of treatment service their youth received.

At most recent update, no families of youth served in publicly funded treatment services reported an arrest their youth experienced in the past 30 days.

### Families Who Reported Youth Clients Had More, Fewer, or the Same Number of Arrests at Most Recent Update Compared to Admission

### Families Who Reported Youth Clients With At Least One Arrest Within the Past 30 Days

Treatment Services	Unduplicated Client Count	Arrest at Admission	Arrest at First Update	Arrest at Most Recent Update
Child or Youth and Family Services (CYF)	10	0.0%	0.0%	0.0%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	0.0%	0.0%	0.0%
<b>Total</b>	<b>10</b>	<b>0.0%</b>	<b>0.0%</b>	<b>0.0%</b>

## General Health

Families of youth clients are asked at the start of treatment and at their most recent update, "Would you say that in general your child's health is?" Families of youth clients could answer in a range from 1-"Poor" to 5-"Excellent". Only families of youth who completed this question at time of admission and time of most recent update are included.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported an increase in their youth's general health.

### Families Who Reported Youth Clients Had Better, Worse, or the Same General Health Rating at Most Recent Update Compared to Admission

### General Health Rating: 1-Poor; 2-Fair; 3-Good; 4-Very Good; 5-Excellent

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Child or Youth and Family Services (CYF)	10	3.70	4.00	4.00	0.30	8.1%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	4.00	4.00	4.00	0.00	0.0%
<b>Total</b>	<b>10</b>	<b>3.70</b>	<b>4.00</b>	<b>4.00</b>	<b>0.30</b>	<b>8.1%</b>

## Physical Health

Families of youth clients are asked at the start of treatment and at their most recent update, "Now thinking about your child's physical health, which includes physical illness and injury, how many days during the past 30 days was your child's physical health not good?" Only families of youth who completed this question at time of admission and time of most recent update are included.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported their youth had an increase in days spent in poor physical health.

Families Who Reported Youth Clients Had More, Fewer, or the Same Number of Days Spent in Poor Physical Health at Most Recent Update Compared to Admission

How Many Days Within the Past 30 Days Has Your Child Spent in Poor Physical Health?

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Child or Youth and Family Services (CYF)	8	2.75	7.25	5.75	3.00	109.1%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	0.00	0.00	0.00	0.00	NaN
<b>Total</b>	<b>8</b>	<b>2.75</b>	<b>7.25</b>	<b>5.75</b>	<b>3.00</b>	<b>109.1%</b>

## Mental Health

Families of youth clients are asked at the start of treatment and at their most recent update, "Now thinking about your child's mental health, which includes stress, depression, and problems with emotions, how many days during the past 30 days was your child's mental health not good?" Only families of youth who completed this question at time of admission and time of most recent update are included.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported their youth had a decrease in days of poor mental health.

Families Who Reported Youth Clients Had More, Fewer, or the Same Number of Days Spent in Poor Mental Health at Most Recent Update Compared to Admission

How Many Days Within the Past 30 Days Has Your Child Spent in Poor Mental Health?

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Child or Youth and Family Services (CYF)	7	12.71	6.29	7.14	-5.57	-43.8%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	29.00	5.00	5.00	-24.00	-82.8%
<b>Total</b>	<b>7</b>	<b>12.71</b>	<b>6.29</b>	<b>7.14</b>	<b>-5.57</b>	<b>-43.8%</b>

## Physical or Mental Health Prevented Normal Activities

Families of youth clients are asked at the start of treatment and at their most recent update, "During the past 30 days, approximately how many days did your child's poor physical or mental health keep them from doing your child's usual activities, such as self-care, work, or recreation?" Only families of youth who completed this question at time of admission and time of most recent update are included.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If they received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported their youth had a decrease in days in which their physical or mental health prevented them from engaging in normal activities.

Families Who Reported Youth Clients Had More, Fewer, or the Same Number of Days Spent in Poor Physical Health or Mental Health at Most Recent Update Compared to Admission

### Number of Days Poor Physical or Mental Health Prevented Normal Activities

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Child or Youth and Family Services (CYF)	7	8.57	3.14	3.14	-5.43	-63.3%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	0.00	3.00	3.00	3.00	Infinity
<b>Total</b>	<b>7</b>	<b>8.57</b>	<b>3.14</b>	<b>3.14</b>	<b>-5.43</b>	<b>-63.3%</b>

## Reported Attempts to Die by Suicide

If you, or someone you know, is in need of crisis support, or experiencing emotional distress, call or text 988, or chat at <https://988lifeline.org/>.

Families of youth clients are asked at the start of treatment and at their most recent update, "How many times has your child tried to commit suicide in the past 6 months?" Only families of youth who completed this question at time of admission and time of most recent update are included.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If they received multiple types of treatment services in FY24, families' responses are counted once in each service.

At most recent update, families of youth served in publicly funded treatment services reported their youth had a decrease in attempts to die by suicide in the past 6 months.

Families Who Reported Youth Clients Had More, Fewer, or the Same Number of Attempts to Die by Suicide at Most Recent Update Compared to Admission

In the Past 6 Months How Many Times Has Your Child Attempted to Die by Suicide?

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Child or Youth and Family Services (CYF)	9	0.22	0.11	0.11	-0.11	-50.0%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	2.00	0.00	0.00	-2.00	-100.0%

## General Satisfaction with Services

Families of youth clients are asked at most recent update to rate how strongly they agree with six different questions pertaining to their overall satisfaction with treatment services their youth received. The average of these six responses is given below. To see specific questions, please see Appendix B.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported satisfaction with the services their youth received.

Were You Satisfied With the Services Your Child Received?

General Satisfaction Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average First Update	Average Most Recent Update
Child or Youth and Family Services (CYF)	10	4.22	4.30
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	4.00	4.00
<b>Total</b>	<b>10</b>	<b>4.22</b>	<b>4.30</b>

## Improved Functioning

Families of youth clients are asked at most recent update to rate how strongly they agree with seven different questions pertaining to their perception of their youth's mental health and social well-being before and after the services they received. The average of these seven responses is given below. To see specific questions, please see Appendix B.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported their youth had improved functioning as a result of services received.

### Improved Functioning

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

Improved Functioning Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Child or Youth and Family Services (CYF)	10	2.93	3.71	3.70	0.77	26.3%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	3.29	3.00	3.00	-0.29	-8.7%
<b>Total</b>	<b>10</b>	<b>2.93</b>	<b>3.71</b>	<b>3.70</b>	<b>0.77</b>	<b>26.3%</b>

## Social Connectedness

Families of youth clients are asked at most recent update to rate how strongly they agree with four different questions pertaining to their youth's connections with their family, friends, and community. The average of these four responses is given below. To see specific questions, please see Appendix B.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported improved social connectedness for their youth.

### Social Connectedness

The orange line is the average rating before treatment. The blue dashboard shows the average rating after treatment.

Social Connectedness Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average Initial	Average First Update	Average Most Recent Update	Change	Percent Change
Child or Youth and Family Services (CYF)	10	3.63	4.13	4.18	0.55	15.2%
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	4.25	3.75	3.75	-0.50	-11.8%
<b>Total</b>	<b>10</b>	<b>3.63</b>	<b>4.13</b>	<b>4.18</b>	<b>0.55</b>	<b>15.2%</b>

## Participation in Treatment Planning

Families of youth clients are asked at most recent update to rate how strongly they agree with three different questions pertaining to their participation in treatment planning for services their youth received. The average of these three responses is given below. To see specific questions, please see Appendix B.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported high levels of participation in their youth's treatment planning.

Participation in Treatment Planning

Participation in Treatment Planning Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average First Update	Average Most Recent Update
Child or Youth and Family Services (CYF)	10	4.13	4.13
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	4.00	4.00
<b>Total</b>	<b>10</b>	<b>4.13</b>	<b>4.13</b>

## Cultural Sensitivity

Families of youth clients are asked at most recent update to rate how strongly they agree with four different questions pertaining to the cultural sensitivity of staff. The average of these four responses is given below. To see specific questions, please see Appendix B.

Families' responses on these surveys are then broken out by the type of treatment service they received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported they felt staff were culturally sensitive.

### Cultural Sensitivity of Staff

Cultural Sensitivity of Staff Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average First Update	Average Most Recent Update
Child or Youth and Family Services (CYF)	10	4.30	4.20
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	4.00	4.00
<b>Total</b>	<b>10</b>	<b>4.30</b>	<b>4.20</b>

## Access to Services

Families of youth clients are asked at most recent update to rate how strongly they agree with two different questions pertaining to the ease and convenience of accessing the services their youth received. The average of these two responses is given below. To see specific questions, please see Appendix B.

Families' responses on these surveys are then broken out by the type of treatment service their youth received. If their youth received multiple types of treatment services in FY24, families' responses are counted once in each service.

Families of youth served in publicly funded treatment services reported ease and convenience when accessing services.

### Access to Services

Access to Services Ratings: 0-Refused to Respond; 1-Strongly Disagree; 2-Disagree; 3-Undecided; 4-Agree; 5-Strongly Agree

Treatment Services	Unduplicated Client Count	Average First Update	Average Most Recent Update
Child or Youth and Family Services (CYF)	10	4.20	4.20
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	1	4.00	4.00
<b>Total</b>	<b>10</b>	<b>4.20</b>	<b>4.20</b>

# Appendix A: Outcome Tool Return Rates

[Page intentionally left blank]

## Adult SUD Outcome Tool Return Rates

Return rates in this section are for adult outcome tools. The return rate reflects tools collected and attempts to collect tools as clients may not always wish to complete the outcome tool.

The target return rate for attempted outcome tools is 60%, which is indicated in the graph below by the orange line.

Treatment Services	Admissions	Initial Tool	Initial Tool Return Rate	Discharges	Discharge Tool	Discharge Tool Return Rate
Clinically Managed Low Intensity Residential Services (3.1)	14	14	100.0%	17	14	82.4%
Intensive Inpatient Treatment (3.7)	98	97	99.0%	34	31	91.2%
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1 & 2.5)	239	205	85.8%	108	72	66.7%
<b>Total</b>	<b>351</b>	<b>316</b>	<b>90.0%</b>	<b>159</b>	<b>117</b>	<b>73.6%</b>

## Adult Justice-Involved SUD Outcome Tool Return Rates

Return rates in this section are for adult justice-involved outcome tools. The return rate reflects tools collected and attempts to collect tools as clients may not always wish to complete the outcome tool.

The target return rate for attempted outcome tools is 60%, which is indicated in the graph below by the orange line.

Treatment Services	Admissions	Initial Tool	Initial Tool Return Rate	Discharges	Discharge Tool	Discharge Tool Return Rate
Evidence-Based SUD Treatment for Justice-Involved Adults	43	43	100.0%	31	30	96.8%
<b>Total</b>	<b>43</b>	<b>43</b>	<b>100.0%</b>	<b>31</b>	<b>30</b>	<b>96.8%</b>

## Youth SUD Outcome Tool Return Rates

Return rates in this section are for youth outcome tools. The return rate reflects tools collected and attempts to collect tools as clients may not always wish to complete the outcome tool.

The target return rate for attempted outcome tools is 60%, which is indicated in the graph below by the orange line.

● SUD Admission Tool Return Rate ● SUD Discharge Tool Return Rate

Treatment Services	Admissions	Initial Tool	Initial Tool Return Rate	Discharges	Discharge Tool	Discharge Tool Return Rate
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1 & 2.5)	10	10	100.0%	3	3	100.0%
<b>Total</b>	<b>10</b>	<b>10</b>	<b>100.0%</b>	<b>3</b>	<b>3</b>	<b>100.0%</b>

## Family SUD Outcome Tool Return Rates

Return rates in this section reflect outcome tools completed by families of youth receiving SUD services. The return rate reflects tools collected and attempts to collect tools as clients may not always wish to complete the outcome tool.

The target return rate for attempted outcome tools is 60%, which is indicated in the graph below by the orange line.

Treatment Services	Admissions	Initial Tool	Initial Tool Return Rate	Discharges	Discharge Tool	Discharge Tool Return Rate
Outpatient and Intensive Outpatient Services (0.5, 1.0, 2.1 & 2.5)	10	10	100.0%	3	3	100.0%
<b>Total</b>	<b>10</b>	<b>10</b>	<b>100.0%</b>	<b>3</b>	<b>3</b>	<b>100.0%</b>

## Adult MH Outcome Tool Return Rates

Return rates in this section are for adult outcome tools. The return rate reflects tools collected and attempts to collect tools as clients may not always wish to complete the outcome tool.

The target return rate for attempted outcome tools is 60%, which is indicated in the graph below by the orange line.

● MH Admission Tool Return Rate ● MH First Update Tool Return Rate ● MH Most Recent Update Tool Return Rate

Treatment Services	Admissions	Initial Tool	Initial Tool Return Rate	First Update	First Update Tool	First Update Tool Return Rate	Most Recent Update	Most Recent Update Tool	Most Recent Update Tool Return Rate
Comprehensive Assistance with Recovery and Empowerment Services (CARE)	47	37	78.7%	42	6	14.3%	713	171	24.0%
<b>Total</b>	<b>47</b>	<b>37</b>	<b>78.7%</b>	<b>42</b>	<b>6</b>	<b>14.3%</b>	<b>713</b>	<b>171</b>	<b>24.0%</b>

## Youth MH Outcome Tool Return Rates

Return rates in this section are for youth outcome tools. The return rate reflects tools collected and attempts to collect tools as clients may not always wish to complete the outcome tool.

The target return rate for attempted outcome tools is 60%, which is indicated in the graph below by the orange line.

Treatment Services	Admission	Initial Tool	Initial Return Rate	First Update	First Update Tool	First Update Return Rate	Most Recent Update	Most Recent Update Tool	Most Recent Update Return Rate
Children, Youth, & Family Services (CYF)	54	7	13.0%	17	0	0.0%	276	10	3.6%
<b>Total</b>	<b>54</b>	<b>7</b>	<b>13.0%</b>	<b>17</b>	<b>0</b>	<b>0.0%</b>	<b>276</b>	<b>10</b>	<b>3.6%</b>

## Family MH Outcome Tool Return Rates

Return rates in this section reflect outcome tools completed by families of youth receiving mental health services. The return rate reflects tools collected and attempts to collect tools as clients may not always wish to complete the outcome tool.

The target return rate for attempted outcome tools is 60%, which is indicated in the graph below by the orange line.

Treatment Services	Admission	Initial Tool	Initial Return Rate	First Update	First Update Tool	First Update Return Rate	Most Recent Update	Most Recent Update Tool	Most Recent Update Return Rate
Children, Youth, & Family Services (CYF)	66	15	22.7%	29	4	13.8%	287	16	5.6%
<b>Total</b>	<b>66</b>	<b>15</b>	<b>22.7%</b>	<b>29</b>	<b>4</b>	<b>13.8%</b>	<b>287</b>	<b>16</b>	<b>5.6%</b>

### 1. Would you say that in general your health is:

☐ Excellent    ☐ Very Good    ☐ Good    ☐ Fair    ☐ Poor

- a.** Now thinking about your physical health, which includes physical illness and injury, how many days during the past 30 days was your physical health not good? —
- b.** Now thinking about your mental health, which includes stress, depression, and problems with emotions, how many days during the past 30 days was your mental health not good? —
- c.** During the past 30 days, approximately how many days did your poor physical or mental health keep you from doing your usual activities, such as self-care, work, or recreation? —

### 2. At this moment, how important is it that you change your current behaviors and/or symptoms? Please circle a number on the scale below:

Not important at all	About as important as most of the other things I would like to achieve now	Most important thing in my life right now
<input type="text" value="0"/>	<input type="text" value="1"/> <input type="text" value="2"/> <input type="text" value="3"/> <input type="text" value="4"/> <input type="text" value="5"/> <input type="text" value="6"/> <input type="text" value="7"/>	<input type="text" value="8"/> <input type="text" value="9"/> <input type="text" value="10"/>

### 3. At this moment, how confident are you that you will change your current behaviors and/or symptoms? Please circle a number on the scale below:

Not important at all	About as important as most of the other things I would like to achieve now	Most important thing in my life right now
<input type="text" value="0"/>	<input type="text" value="1"/> <input type="text" value="2"/> <input type="text" value="3"/> <input type="text" value="4"/> <input type="text" value="5"/> <input type="text" value="6"/> <input type="text" value="7"/>	<input type="text" value="8"/> <input type="text" value="9"/> <input type="text" value="10"/>
