Plan of Correction

Program Name: Martín Addiction Recovery Center  
Date Due: 11/26/21

Client Charts POC-1

Rule #: 67:61:07:07  
Rule Statement: Continued service criteria. The program shall document for each client the progress and reasons for retaining the client at the present level of care; and an individualized plan of action to address the reasons for retaining the individual in the present level of care. This document is maintained in the client case record. It is appropriate to retain the client at the present level of care if:

A. The client is making progress but, has not yet achieved the goals articulated in the individualized treatment plan. Continued treatment at the present level of care is assessed as necessary to permit the client to continue to work toward his or her treatment goals; or

B. The client is not yet making progress but, has the capacity to resolve his or her problems. He or she is actively working toward the goals articulated in the individualized treatment plan. Continued treatment at the present level of care is assessed as necessary to permit the client to continue to work toward his or her treatment goals; or

C. New problems have been identified that are appropriately treated at the present level of care. The new problem or priority requires services, the frequency and intensity of which can only safely be delivered by continued stay in the current level of care. The level of care in which the client is receiving treatment is therefore, the least intensive level at which the client's new problems can be addressed effectively.

The individualized plan of action to address the reasons for retaining the individual in the present level of care shall be documented every:

a. Two calendar days for:
   i. Clinically managed residential detoxification.

b. 14 calendar days for:
   i. Early intervention services.
   ii. Intensive outpatient services.

Updated 2/24/2016
iii. Day treatment services; and  
iv. Medically monitored intensive inpatient treatment; and

<td></td>
</tr>
</tbody>
</table>

**Area of Noncompliance:** Only one reviewed file had a continued service review. The review had information the client should remain in care. The review was missing the justification and the individual plan for continued treatment. The review was divided by ASAM dimensions, but each dimension only had a box checked that the client should remain in the current level of care.

**Corrective Action (policy/procedure, training, environmental changes, etc):** An Updated Continued Service Criteria form has been created. This changed document, in its entirety will be presented and begin being utilized by Martin Addiction Recovery staff, Morris Brewer Sr., CAC & Tracee Livermont, CAC as of October 29, 2021.

**Anticipated Date Achieved/Implemented:**
