Stakeholder Survey Summary
Prairie View Prevention
Printed September 2021

Survey Respondents

The Division of Behavioral Health (DBH) recognizes the need for strong community collaboration at the local level between agencies accredited with the DBH and their local referral sources seeking services for clients. Accredited agencies are asked to share a stakeholder survey with local referral sources such as schools, healthcare providers, and other entities of their choosing. The Stakeholder Survey is intended to create a dialogue between referral sources and accredited agencies to encourage collaboration to best meet the needs of clients.

In FY18, Prairie View Prevention did not have any responses collected.

Impact of Outpatient Treatment Services

Impact of treatment services is measured by surveying youth perception of the quality of services received including the following: general satisfaction with services, access to services, cultural sensitivity, outcome of services, and participation in treatment planning. Additionally, impacts are measured by improvements in social connectedness and overall functioning. Impact of treatment services is relevant because youth who feel empowered, motivated, have positive family relationships, and feel they have the ability to change may be more likely to have positive treatment outcomes.

The following information represents data from those youth who agreed or strongly agreed at the time of successful discharge.
