Youth Programs Survey
(12-20 year olds)

This survey is voluntary. If you choose to take it, you may skip any question you don't want to answer. You can still be part of the program whether you answer the questions or not.

This survey asks about your experience and opinion on a number of things related to alcohol and other substance use. Your answers to these questions will be confidential. That means no one will connect your answers with your name or any other information about you that can identify who you are. To help us keep your answers secret, please do not write your name on this survey form.

The information in this survey will be used to learn more about the effectiveness of programs in preventing substance use and protecting youth.

This is not a test, so there are no right or wrong answers. Some questions may ask you to select all of the answers that are relevant, and others ask you to select a single answer. If the question asks for a single answer and you don't find an answer that exactly fits, choose one that comes closest.

If you are willing to complete this survey the monitor will provide you with instructions for completing the second page.

Thank you for agreeing to participate in this survey.

The next few questions ask about your use of and attitudes toward alcohol, prescription drug, and other substance use.

Alcoholic beverages: Include beer, wine, wine coolers, malt beverages, and liquor	Fill in number of days (0 – 30)	Check if don't know or can't say
