The Board was in agreement that in order to determine eligibility for private practice, an Independent Practice section would need to be added to page one of the Certification/Licensure Renewal Application. A ‘Work Experience Verification for Independent Practice’ form, verifying two years of qualifying supervised work experience in the field, accrued after initial certification or licensure, must also be on file. Failure to document the qualifying work experience will be cause for referral to the Board of Directors and policy will prohibit the BAPP from processing the renewal. Information regarding Independent Practice qualifications and requirements will also be included in the letter applicants receive upon successful completion of the written examination.
It is the Board’s desire to update or adopt a new Code of Ethics and Standards of Practice for the BAPP.
