The Board decided to discontinue reporting disciplinary actions on the list of licensees unless permanent surrender, suspension or revocation. The Board decided not to license school psychologists and to add language in the core requirements that would exclude school psychology. The Board also determined they would not add language to license psychological assistants.

**ASPPB Guidelines on Practicum Experience:** Magnavito compared the differences between ASPPB and APA doctoral requirements. Stanage expressed interest in using APA criteria and adding our residency requirements. Wiemers stressed a year of residency is vital. The board agreed that the internship must be APA or APIC approved, one year of full time continuous residency at the institution granting the degree and a post doctoral year is required.

**CPQ:** The Board also discussed the CPQ and determined that unless their requirements satisfy the boards one year of “continuous” residency they would not be able to accept the CPQ. Stanage advised he would provide a draft of the USD student’s proposal to the board. Buchkoski requested the students do a survey of currently licensed psychologists to see if they would support the proposal.

**Fielding Graduate University and Capella University:** Distance learning was discussed. A representative from Capella wishes to provide a presentation to the board regarding their program and will attend a future meeting.
