Pregnancy Medical Home

Medicaid Advisory Committee
During the 2023 legislative session the South Dakota state legislature appropriated $3.1 million to support the creation of a new Pregnancy Health Home based on Governor Noem’s budget recommendation.

- The majority of the funding will be used for provider payments.
- The appropriation also provides for two new DSS staff members to implement and run the program.
The program is modeled on Medicaid’s current **Primary Care Provider** and **Health Home** programs as well as ideas tested through **innovation grants**.

- DSS’s Health Home model has shown an ability to achieve better health outcomes for individuals with chronic conditions through care coordination.

- DSS tested the concept of enhanced care management for pregnant Medicaid recipients through Primary Care and Prenatal Care Innovation Grants. Results showed:
  - Increased completion of high risk screening rates.
  - Increased rates of breastfeeding.
  - Increased early initiation of prenatal care.
High level objectives of the program include:

- Increase timeliness and utilization of prenatal, postpartum, and well-child care.

- Provide and connect pregnant and postpartum women with supports that help them to be healthy and thrive.

- Improve health outcomes for pregnant women and their babies.
Provider Qualifications

Provider Qualifications will be similar to the PCP program.

- Eligible prenatal care providers include Medicaid enrolled:
  - Licensed physicians
  - Physician assistants
  - Certified nurse practitioner
  - Certified nurse midwife by the state
  - Federally qualified health care center
  - Rural health clinic
  - Indian Health Services
  - Tribal 638 providers
Medicaid Recipients

The intent is for the program to operate statewide and for all pregnant women to participate in the program.

- We anticipate will take time to fully develop provider capacity for statewide operation.

- Recipients will continue to stay in the program in the postpartum period.
Anticipated elements of the program include:

• Providers are paid a Per Member Per Month fee and in return agree to provide enhanced services and services in accordance with established standards of care.

• Enhanced services may include:
  • Enhanced care coordination.
  • Enhanced screenings and referrals to community resources.
  • Enhanced collaboration with Department of Health programs such as Bright Start, Pregnancy Care, and WIC.
Providers will also be asked to implement a quality improvement projects focused on one of four areas:

- Early prenatal care;
- Behavioral health disorders;
- Access to care; or
- Nutrition.
Next Steps

DSS anticipates convening a stakeholder work group to provide input this summer. The work group will include:

• Healthcare providers and clinics
• DSS and DOH staff
• Tribal and IHS providers

We also plan to obtain recipient input through a variety of mechanisms including surveys and focus groups.

The program is anticipated to begin in 2024.
