From: South Dakota Medicaid

RE: Inpatient Hospital Services Manual

South Dakota Medicaid published an updated [Inpatient Hospital Services](#) provider manual. The updated manual primarily reflects clarifications of current coverage. Inpatient hospital providers should review the updated manual. Specifically, providers are encouraged to review updated guidance regarding continued stay requirements. In addition, providers should note updated condition code billing requirements for induction and cesarean section deliveries.

Questions regarding the provider manual updates may be sent to DSS.Medicaid@state.sd.us.

Sincerely,

South Dakota Medicaid
