RE: National Correct Coding Initiative (NCCI)

South Dakota Department of Social Services is preparing to implement the federally mandated National Correct Coding Initiative (NCCI) edits on April 1, 2012. In order to prepare Providers for this implementation, we have set up an information website that can be accessed at <http://dss.sd.gov/sdmedx/includes/portal/NCCI/index.aspx>. At this website, you can access South Dakota specific bulletins. The first bulletin has been posted at <http://dss.sd.gov/sdmedx/includes/portal/NCCI/index.aspx>.

Feel free to forward this message to others that may be interested in the National Correct Coding Initiative (NCCI). Individuals that have not received this listserv message but wish to be notified each time a bulletin becomes available, can join the listserv at <http://listserv.state.sd.us/scripts/wa.exe?A0=SDMEDICALSERVICES>
