RE: Medicaid Billing Reminder

RE: Medicaid Billing Reminder

Please remember as referenced in our April 9th, 2018 communication, that the taxonomy code on the enrollment record is the one that will be used on claims. Unless South Dakota Medicaid requires differentiating taxonomy codes for different services, only one taxonomy code for an individual practitioner should be captured. Providers will start seeing claim denials if taxonomy codes are not populated or fail to match the enrollment record.

Sincerely,

South Dakota Medicaid
