Attention: South Dakota Medicaid Chiropractors

From: South Dakota Medicaid

RE: Chiropractor Coverage and Billing Requirements

South Dakota Medicaid covers manual manipulation of the spine to correct a subluxation. Manual manipulations of the spine are limited to 30 during a 12-month period. South Dakota Medicaid has historically designated certain diagnosis codes that can be billed for chiropractic services. South Dakota Medicaid has reviewed and updated the chiropractor diagnosis code list. In accordance with South Dakota Medicaid coverage claims must be billed in the following manor:

1. Chiropractic providers must bill a diagnosis that includes the level of subluxation as the **primary** diagnosis code.
2. Symptoms that directly relate to the diagnosis (subluxation) may be listed as **secondary** diagnoses.

A full list of primary and secondary diagnoses is provided in the appendix. Claims which are submitted with ICD-10 codes which are not allowed to be billed as a primary and/or secondary diagnosis code will deny. Providers may request South Dakota Medicaid review ICD-10 codes for potential coverage via the Online Portal. Instructions regarding submitting a request are available in the [Reconsiderations, Appeals, and Grievances](#) manual.

Additional chiropractic coverage information is available in the [Chiropractic Services](#) manual.

Sincerely,

South Dakota Medicaid
