Dear Clinic Manager,

The Department of Social Services works to strengthen and support children and adults with behavioral health needs through the provision of a variety of preventive and community behavioral health services to foster independent and healthy individuals and families in South Dakota. South Dakota Medicaid and the Division of Behavioral Health have worked together to create the enclosed rack card outlining behavioral health resources available to all South Dakotans.

As a clinic participating in the South Dakota Medicaid Primary Care Provider (PCP) Program, we are sending you materials to share with patients who may benefit from knowledge of these resources. Materials may be used for both Medicaid-eligible and non-Medicaid eligible patients. We encourage you to share these with patients and to make these rack cards available in your clinic.

You may order more rack cards online at <https://dss.sd.gov/formsandpubs/>. To do so, select "Medical Services" in the Service Area drop down box and look for item "MS 13 Behavioral Health Resources." Click the blue cart button to the right to order.

To learn more about Behavioral Health resources available in South Dakota, please visit <https://dss.sd.gov/behavioralhealth/>. If you have questions regarding this letter, please contact us at 605.773.3495.

Thank you for all you do to keep our communities healthy!

Sincerely,

South Dakota Medicaid
