#### 3.0 SCOPE OF WORK

The Department of Social Services vision is Strong Families – South Dakota's Foundation and Our Future. The purpose of the Division of Child Protection Services is to assure children's safety, permanency, and well-being. The goal of Child Protection Services is to maintain children's safety in their homes and when not possible, children may need either a temporary or permanent alternative family setting. Child Protection Services believes that children should remain with their families whenever possible.

Family time or supervised family visitation is essential for healthy child development, especially for children in foster care, as it helps to maintain parent-child attachment, reduce a child's sense of abandonment, and preserve a sense of belonging as part of a family and community. A Family Time Plan is developed for children in foster care and ensures frequent and quality interactions. Family time includes face to face contact, telephone calls, virtual family time, letters, emails, and attendance at routine activities. By offering a setting for supervised family time, families are able to maintain regular contact, which helps strengthen the bonds between them as they work towards reunification. Family time is most beneficial in various settings outside of a facility, such as family homes, parks, or other familiar environments, whenever it is safe and feasible. Child Protection Services must ensure that the well-being and safety needs of the children in our care are met.

The Sioux Falls office of Child Protection Services provides family time to almost 500 children each month. Due to limitations in staffing and physical resources, there is a need for additional support through supervised family time for families. Additionally, there is a need for transportation to and from supervised family time, as well as to various appointments to meet their educational, medical, or mental health needs. At times, parents also need transportation to family time or appointments.

Child Protection Services is seeking a Provider that can provide services in two areas: Transportation and Family Time. In State Fiscal Year 2024, the current vendor supervised approximately 850 family visits for an average of 27 families per month. Transportation was provided to approximately 700 visitations or appointments, with a total of 16,285 miles traveled. These services were in addition to the family time and transportation services provided to families by the Division of Child Protection Services outside of the contract.
