Total FY 20 (July 1, 2019 – June 30, 2020)	325	517	8

Definitions of Types of Reports:

- Out of Home Abuse and Neglect Reports:**
 Reports received that are alleging abuse or neglect of a child(ren) by a staff member(s) in a facility. This includes but is not limited to restraints in which a child was injured or lack of supervision by staff. These reports are either screened out, assigned for investigation, or referred to licensing.
- Information Only Reports:**
 Reports received in which a situation/incident occurred with a child; however, there was no indication of abuse/neglect or non-compliance with licensing standards by staff. These reports include injuries from recreational activities and medical emergencies like appendicitis.
- Resource Complaints:** Reports the licensed facility is not complying with licensing standards but do not contain any allegations of child abuse and/or neglect by the facility. These reports may include issues related to staff training or staff child ration. All resource complaints are forwarded to licensing staff.
