Women and Maternal Health

Priority Need - Mental Health and Substance Abuse

**Objective:** Decrease percent of women on South Dakota WIC program who experience postpartum depressive symptoms following a recent live birth from 20.8% (2018) to 18.7% by 2026 (PRAMS).
Women & Maternal Health Strategies

- Implement an evidence-based and equitable behavioral health screening tool and referral protocol
- Provide training to OCFS field staff on signs and symptoms of perinatal depression and use of an evidence-based, equitable screening tool and referral pathway
- Create toolkit of resources on Maternal Mental Health/Substance Abuse and Health Equity.
- Develop partnerships with diverse, multisector stakeholders to address maternal mental health and substance use
Perinatal and Infant Health

Priority - Infant safe sleep

**Objectives:** 1) Reduce the number of SUID deaths related to unsafe sleep environment from 115/100,000 in 2017 to 84/100,000 by 2026 (NVSS).

2) Increase the percent of infants placed to sleep without soft objects or loose bedding from 47% in 2018 to 53% in 2026 (PRAMS).
Perinatal and Infant Health Strategies

- Disseminate culturally appropriate safe sleep educational materials, resources, and messages via social media, print, and radio.
- Collaborate with diverse community partners to provide Child Death Review and disseminate findings to all South Dakotans.
- Collaborate with diverse, multi-sector organizations/agencies to promote safe sleep.
Child Health
Priority - Parenting education and support

**Objective:** Increase the percent of children from non-metropolitan areas 9 through 35 months who received a developmental screening using a parent-completed screening tool in the past year from 34.3% (2016-17) to 37.7% by 2026 (NSCH)
Child Health Strategies

- Develop and equitably disseminate a clear and consistent message to communicate the importance of developmental screening to families and providers.

- Implement training that emphasizes health equity for community health offices to provide ASQ and ASQ SE screenings.

- Identify and address gaps in parenting education through health equity lens and provide parenting support to South Dakota parents, including vulnerable populations.

- Identify and address gaps in parenting education through health equity lens and provide parenting support to South Dakota parents, including vulnerable populations.
Adolescent Health

Priority - Mental health/suicide prevention

Objective(s):
Decrease the adolescent suicide rate among 15 through 19-year old from 29.2 per 100,000 in 2016-18 to 10.2 in 2026 (NVSS).

Decrease the percentage of 9th-12th graders who attempted suicide in the past 12 months from 12.3% in 2019 to 11.1% in 2026 (YRBS).
Adolescent Health Strategies

Promote evidence-based programs and practices that increase protection from suicide risk

Create opportunities for Positive Youth Development among diverse youth with a health equity lens

Develop and disseminate equitable and accessible Suicide Prevention education material, resources and messaging

Develop partnerships with diverse, multi-sector local and state agencies to address youth mental health and suicide prevention among all SD youth
Adolescent Health

Priority - Healthy Relationships and Sexual Health

**Objective:** Increase the percentage of 9\textsuperscript{th} – 12\textsuperscript{th} grade students who used a condom during last sexual intercourse (among students who were currently sexually active) from 55\% in 2019 to 60.5\% in 2026. (YRBS)
Adolescent Health Strategies

- Promote evidence-based programs and practices that increase healthy relationship skills, STI prevention and pregnancy prevention
- Create opportunities for Positive Youth Development among diverse youth with a health equity lens
- Develop and disseminate equitable and accessible Healthy Relationship and Sexual Health materials, resources and messaging
- Develop partnerships with diverse, multi-sector local and state agencies to address youth healthy relationships and sexual health among all SD youth
Children and Youth with Special Healthcare Needs

Priority - Access to care and services

Objective: Increase the percentage of CYSHCN who report receiving care in a well-functioning system from 16.3% (2017-18) to 17.2% by 2026 (NSCH)
Children and Youth with Special Healthcare Needs Strategies

- Enhance equitable family access to needed supports and services
- Identify and implement strategies to equitably advance medical home components for families of CYSHCN through access to family centered care coordination
- Coordinate the state newborn screening infrastructure focused on equitable testing and access to follow up services
Cross Cutting and Systems Building

Priority - Data sharing and collaboration

Objective(s):
1. Increase the number of data sharing projects accomplished from zero to four by September 30th, 2021.

2. Increase the number of partners that DOH MCH Team collaborate with on data projects from zero to five by September 30th, 2021.
Cross Cutting Systems Building Strategies

- Provide access to timely, reliable data so that partners and communities can use it in their own efforts to advance equity.
- Develop reports that highlight health inequities across programs and issue areas.
- Analyze de-identified data to assess social determinants of health and other underlying factors that play a role in morbidity and mortality.
Public Input Opportunity
Open until August 3rd
