Community Health Worker Collaborative of South Dakota

An introduction to Community Health Workers and the CHWSD

What is a Community Health Worker?
The CHWSD has adopted the American Public Health Association’s (APHA) definition of a Community Health Worker (CHW):

“A community health worker (CHW) is a frontline public health worker who is a trusted member of and/or has an unusually close understanding of the community served. This trusting relationship enables the worker to serve as a liaison/link/intermediary between health/social services and the community to facilitate access to services and improve the quality and cultural competence of service delivery.”

- APHA 2020¹
Where do CHWs Work?

Community Health Workers can work in all different areas, from hospitals to insurance companies, and behavioral health to chronic disease management. Some of the more common locations where CHWs work includes:

- Hospitals
- Medical clinics
- Community health centers
- Chronic disease management
- Behavioral health
- Addiction and substance abuse
- Head start programs
- Child abuse prevention programs
- Employee benefits programs
- Insurance companies
- And many, many more areas and specialties

CHW Scope of Work
South Dakota-specific

Health system navigation and resource coordination, including helping a patient find providers to receive a service, helping a patient make an appointment for a service, arranging transportation to a medical appointment, attending an appointment with the patient for a medical service, and helping a patient find other relevant community resources such as a support group.

Health promotion and coaching, including providing information or education to patients that makes positive contributions to their health status, such as cessation of tobacco use, reduction in the misuse of alcohol or drugs, improvement in nutrition, improvement of physical fitness, family planning, control of stress, pregnancy and infant care including prevention of fetal alcohol syndrome.

Health education to teach or promote methods and measures that have been proven effective in avoiding illness and/or lessening its effects, such as immunizations, control of high blood pressure, control of sexually transmittable disease, prevention and control of diabetes, control of toxic agents, occupational safety and health, and accident prevention. The content of the education must be consistent with established or recognized healthcare standards.
Mission and Vision
Community Health Worker Collaborative of SD

**Mission**
To promote, support, and sustain the Community Health Worker (CHW) profession in South Dakota.

**Vision**
A well-established statewide network of CHW professionals who provide a wide range of services for South Dakotans.
Organizational Origins

Timeline of CHW Activities
