

Naloxone Saves Lives

IN CASE OF OVERDOSE

Anyone at risk of an opioid-related overdose or who may assist an at-risk person (family member or friend) can get naloxone from a South Dakota pharmacy without a prescription.

- Naloxone (NARCAN®) is a safe medication used to reverse an opioid overdose.
- ANYONE can administer naloxone.
- There is no potential for abuse and side effects are very rare.
- If you can't afford naloxone, your pharmacy can help you get it for FREE!

NALOXONE IS NOT A SUBSTITUTE FOR MEDICAL CARE.
Call 911 for emergency medical help immediately after giving the first dose of naloxone, even if the person wakes up.

Opioid overdose can be reversed with naloxone.

Who's at risk for opioid overdose?

- Anyone taking prescription medications
- Anyone with a substance use disorder
- Anyone using illicit opioids

How do I get naloxone?

- Call the Resource Hotline 24/7 **1-800-920-4343**
- Call your pharmacy and ask if they are participating in the statewide standing order for naloxone
