Fiscal Year 2009 Rate Increase Underpayment for Mental Health Providers

Dear South Dakota Medical Assistance Independent Mental Health Provider:

“Important Message - Please Read”

South Dakota Medicaid recently identified a system error that prevented payment on the State Fiscal Year 2009 rate increases effective July 1, 2008.

To correct this oversight, South Dakota Medicaid submitted a mass adjustment of affected claims with dates of service on and after July 1, 2008 to reimburse the approved State Fiscal Year 2009 rate.

Please note the adjustments in the coming weeks, beginning with this weeks Remittance Advice (October 22, 2008).
